### **About BizView and NCG Group**

BizView is one of the leading systems for forecasting, budgeting and reporting in the Nordic countries. The software provides a web-based Excel-like user interface combined with powerful workflow management. BizView is an open solution that also fits well with QlikView's and Microsoft's business intelligence offerings. BizView is developed and marketed by NCG Group with offices in Scandinavia and is marketed outside Scandinavia by partners. Over 1000 companies use our solutions.

### **About Vistin Pharma**

Vistin Pharma is a Norwegian pharmaceutical company producing Active Pharmaceutical Ingredients (API) and Solid Dosage Forms to the global pharmaceutical industry.

We have key positions and growth potential in the international Metformin and Opioids market, and a strong fundament to create a highly efficient CMO organization.

With more than 65 years of pharmaceutical industry experience, we have built significant capacity and expertise as an API provider. Vistin Pharma has more than 140 highly qualified employees and two manufacturing facilities in Kragerø, Norway. Both facilities are certified according to current Good Manufacturing Practice (cGMP) and successfully inspected by the US Food and Drug Administration (FDA) in 2014. Headquarter is located in Oslo, Norway.

Our API's are marketed in more than 50 countries around the world.
