

Axer Eiendom chooses BizView for their corporate performance management

BizView continues its strong growth in property and time and project-oriented businesses, so it's with great pleasure that we now wish Axer Eiendom welcome as a new BizView customer. Real estate development develop and administrate large values, and is therefore highly dependent on very good support in all their processes around corporate performance management to optimize profitability and financial control.

NCG's long-standing partner, MBA Rune Kristiansen, pronounce through his long experience in the sector, that with BizView we can combine functionality in the same class as the largest systems in the world with simplicity and speed of deliveries and solutions that previously only small standard systems could deliver. BizView represents a paradigm shift around cost-benefit in the delivery of BI and CPM systems.

About BizView and NCG Group

BizView is one of the leading systems for forecasting, budgeting and reporting in the Nordic countries. The software provides a web-based Excel-like user interface combined with powerful workflow management. BizView is an open solution that also fits well with QlikView's and Microsoft's business intelligence offerings. BizView is developed and marketed by NCG Group with offices in Scandinavia and is marketed outside Scandinavia by partners. Over 1000 companies use our solutions.

About Axer Eiendom

We develop, sell and manage real estate located in eastern Norway.

Since inception in 1999 we have built over 300 homes, and now have over 700 under development. In addition, we have developed 70.000m² commercial premises, and we own and currently manages 60,000 m² of these.

The ability to find good solutions and rethinking characterizes Axer. This applies as well solutions for our tenants as residential customers, and the development of land and commercial properties. Our philosophy is that the best solutions found through cooperation and by considering several options.
