

Bizview Systems strengthens its position as a complement to Microsoft with new partner Accigo AB

Bizview Systems strengthens its position in the Scandinavian market with the new partnership with Accigo AB. Accigo is one of the strongest and fastest growing IT consultancy firms in Scandinavia, focusing mainly on Microsoft products. With this partnership BizView will strengthen its presence in the expanding Microsoft market, and Accigo will have a state of the art product in their offering, adding Corporate Performance Management to their portfolio.

Accigo Managing Director, Jan Mentzer: "The partnership with Bizview really strengthens our offering in many of our business areas. Certainly in the ERP segment with Microsoft Dynamics AX, and especially within our successful effort in the business intelligence area together with the Microsoft Business Intelligence platform"

Jens Karlsson, VP Global Partner Program at Bizview Systems says: "This partnership means a lot to us. We revitalize the partnership with one of Scandinavia's premier Microsoft solution providers. With the deep insight and knowledge about all aspects of an ERP / BI solution, we are convinced Accigo will fully take BizView to heart and make it an important part of their successful customer offerings. In addition I am very intrigued by how Accigo implements solutions and conducts their business. Everyone focuses on its customers, but Accigo takes it to a new level with its Harmony program".
