

July's best new casinos selected

Every month, New Casinos run a recurring competition called best new casinos of the month. The competition have been hard as usual, but here are the results.

During July, several new casinos were launched. The judges found it harder than usual to decide the winner of July's best new casinos. In order to simplify the competition and select a deserved winner, two separate prizes will be awarded. One for the **best new mobile casino** and one for the **best new desktop casino**.

"Casumo has surprised the jury with their seamless new mobile casino experience, loading faster than any competitor and with incredible user friendly web design".

Casumo has been working almost a year to create what has become an outstanding new mobile casino, compatible with all devices. The unique innovation that Casumo done is to make everything loading so much quicker than any competitor. Our jury tested the game Starburst at Casumo on a iPhone 6 Plus and were delighted with the high resolution used all over the screen. "The new version is really an enhancement for all existing Casumo users and will likely lead to many new customers signing up for the leading mobile casino", says Markus Jalmerot, founder of New Casinos.

Among the new desktop casinos one Australian company stood out a bit more than others.

"Gday Casino offers the full experience and allows any new user try it out with 50 (!) free spins without deposit. After the first deposit over £100, all players get a slab of Stella beer free of charge, a truly unique offer", says Markus Jalmerot.

Gday Casino has invested heavily in their live games, casino players can enjoy classics like Roulette, Blackjack, Baccarat, Lottery and Keno, with real dealers. This is a really fun way to play and it is a bit of a change from just playing at a slot machine. For all bonus hunters that thought it is all over, there are still more to come. Mondays offering Blues Buster with 25 % reload bonus up to 50 £/€/€ every week, while Tuesdays gives away Mystery Bonus on any casino game. Wednesday offers 3 generous reload bonuses and tremendous Thursday is the day to grab loyalty points on selected slot games. Thursdays also give all Gday Casino players double loyalty points on that particular day.
