Lund, Sweden, May 5, 2022 – Alligator Bioscience (Nasdaq Stockholm: ATORX) today announces that the annual general meeting was held in the company this day. The annual general meeting was held only by advance voting (postal vote) in accordance with temporary legislation. A summary of the adopted resolutions follows below. All resolutions were adopted with the required majority of votes.

Resolution on adoption of accounts and distribution of the company's result

The annual general meeting resolved to adopt the profit and loss statement and balance sheet as well as the consolidated profit and loss statement and consolidated balance sheet. The annual general meeting also resolved to distribute the company's result in accordance with the proposal from the board meaning that no dividends are paid and that the available funds of SEK 196,189,444 are carried forward to a new account.

Discharge from liability of the members of the board and the CEO

The annual general meeting resolved to discharge the members of the board and the CEO from liability for the financial year 2021.

Election of board members and auditor as well as remuneration for the board members and auditor

The annual general meeting resolved in accordance with the proposal from the Nomination Committee to re-elect Anders Ekblom, Hans-Peter Ostler, Graham Dixon, Eva Sjökvist Saers and Veronica Wallin as board members, and to elect Staffan Encranztz and Denise Goode as new board members. Anders Ekblom was re-elected as Chairman of the board, and Hans-Peter Ostler was re-elected as Vice Chairman of the board.

The annual general meeting resolved in accordance with the proposal from the Nomination Committee that remuneration to the board shall be paid with SEK 650,000 to the Chairman of the board of directors, with SEK 400,000 to the Vice Chairman of the board of directors and with SEK 300,000 to each of the other board members who are not employed by the company. Remuneration for committee work shall be paid with SEK 125,000 to the Chairman of the Audit Committee, with SEK 50,000 to each of the other members of the Audit Committee, with SEK 50,000 to the Chairman of the Remuneration Committee and with SEK 25,000 to each of the other members of the Remuneration Committee.

The annual general meeting also resolved to re-elect Ernst & Young AB as the auditor and that remuneration to the auditor shall be paid in accordance with customary norms and approved invoice. Ernst & Young AB has informed that the authorized public accountant Ola Larsmon will continue to be appointed as the auditor in charge.

Resolution on approval of remuneration report
The annual general meeting resolved to approve the board’s remuneration report for the financial year 2021.

Resolution on authorization regarding issues

The annual general meeting resolved in accordance with the proposal from the board to authorize the board, up until the next annual general meeting, at one or several occasions, with or without deviation from the shareholders’ preferential rights and with or without provisions regarding contribution in kind, set-off or other conditions, to resolve to issue new ordinary shares, convertibles and/or warrants with right to convert into and subscribe for ordinary shares respectively. The reason for why a deviation from the shareholders’ preferential rights should be possible is to enable the company to source working capital, to be able to execute acquisitions of companies or operating assets as well as to enable new issues to industrial partners within the framework of partnerships and alliances. The total number of ordinary shares that may be issued (alternatively be issued through conversion of convertibles and/or exercise of warrants) shall not exceed 20 percent of the current number of outstanding ordinary shares as per the date of the annual general meeting. In case the authorization is used for an issue with deviation from the shareholders’ preferential rights, the issue shall be made on market terms.

Resolution on implementation of a warrant program for employees by way of (A) directed issue of warrants; and (B) approval of transfer of warrants

The annual general meeting resolved in accordance with the proposal from the board of directors to implement a warrant program for employees in the company based on issue and transfer of warrants.

The warrant program shall comprise a maximum of 3,700,000 warrants. Each warrant shall entitle to subscription of one ordinary share in the company. The subscription price per share shall correspond to 200 per cent of the volume weighted average price according to Nasdaq Stockholm’s official price list for ordinary shares in the company during the 10 trading days immediately after the annual general meeting on 5 May 2022. Subscription of shares by virtue of the warrants may be effected as from 1 June 2025 up to and including 30 June 2025.

The warrants shall be issued to a wholly owned subsidiary to the company without consideration. Transfer to participants under the warrant program shall be made against cash consideration which shall correspond to the fair market value of the warrant at the time of the transfer which shall be established by an independent valuation institute in accordance with the Black Scholes formula.

The reasons for the implementation of the warrant program and the deviation from the shareholders’ preferential rights are to be able to create possibilities for the company to retain competent staff through the offering of a long term ownership engagement for the employees in the company. Such ownership engagement is expected to stimulate the employees in the company to an increased interest for the business and the earnings trend as well as to increase the feeling of connectedness with the company. Since the warrants in the warrant program will be transferred to the participants at the fair market value, the company’s assessment is that the company will not incur any social costs in relation to the warrant program. The costs related to the warrant program will hence only be composed of limited costs for implementation and administration of the program.

In case all warrants issued within the warrant program are utilized for subscription of new ordinary shares, a total of 3,700,000 new ordinary shares will be issued, which corresponds to a dilution of approximately 1.65 per cent of the company’s ordinary shares after full dilution, calculated on the number of ordinary shares that will be added upon full utilization of all warrants issued under the warrant program.

Resolution on implementation of a warrant program for certain board members by way of (A) directed issue of warrants; and (B) approval of transfer of warrants
The annual general meeting resolved in accordance with the proposal from the Nomination Committee to implement a warrant program for certain board members of the company based on issue and transfer of warrants.

The warrant program shall comprise a maximum of 600,000 warrants. Right to allotment in the warrant program shall only vest in the board members elected by the annual general meeting on 5 May 2022, excluding the board member Staffan Encrantz. Each warrant shall entitle to subscription of one ordinary share in the company. The subscription price per share shall correspond to 200 per cent of the volume weighted average price according to Nasdaq Stockholm’s official price list for ordinary shares in the company during the 10 trading days immediately after the annual general meeting on 5 May 2022. Subscription of shares by virtue of the warrants may be effected as from 1 June 2025 up to and including 30 June 2025.

The warrants shall be issued to a wholly owned subsidiary to the company without consideration. Transfer to participants under the warrant program shall be made against cash consideration which shall correspond to the fair market value of the warrant at the time of the transfer which shall be established by an independent valuation institute in accordance with the Black Scholes formula.

The Nomination Committee considers that a share-based incentive program is an important part of a competitive remuneration package in order to attract, retain and motivate qualified board members of the company and to stimulate the board members to perform their utmost in order to maximize value creation for all shareholders. Therefore, the Nomination Committee considers that the warrant program will increase the board members' commitment to the company's operations, strengthen loyalty to the company and be beneficial for the company as well as its shareholders. Since the warrants in the warrant program will be transferred to the participants at the fair market value, the company's assessment is that the company will not incur any social costs in relation to the warrant program. The costs related to the warrant program will hence only be composed of limited costs for implementation and administration of the program.

In case all warrants issued within the warrant program are utilized for subscription of new ordinary shares, a total of 600,000 new ordinary shares will be issued, which corresponds to a dilution of approximately 0.27 per cent of the company’s ordinary shares after full dilution, calculated on the number of ordinary shares that will be added upon full utilization of all warrants issued under the warrant program.
