Information about Double Bond Pharmaceutical International AB

DBP is a pharmaceutical company with the primary focus on the development of therapies against cancer based on the company's own developed drug delivery technology BeloGal®. The company was granted Orphan Drug Designation status by European Medicines Agency (EMA) in June 2015 for its first product, SA-033, for treatment of hepatoblastoma. Double Bond Pharmaceutical acquired rights to Temodex, a drug registered in Belarus for treatment of brain tumors, in October 2015, and was granted Orphan Drug Designation status by EMA in July 2016 for this formulation of temozolomide for the treatment of glioma. The formulation is now being further developed for registration in the EU and globally and has a working name SI-053 in the DBP pipeline.
