

# Eastnine launches new website

**Eastnine launches a new website as part of the continued work to provide all stakeholders such as shareholders, tenants, media and others with current and relevant information. The website reflects Eastnine's focus on the modern and the sustainable.**

The launch is part of the transformation of Eastnine's external communication, where both the graphic profile and the financial reports were updated in 2020. The purpose of the entire conversion has been for the communication to support and strengthen Eastnine's new business plan, business concept and vision.

The website has been updated with broader content and new technical solutions, all designed in accordance with Eastnine's new graphic profile. Sustainability work has been given more space, as well as investor information and information to tenants. Most of the information is available in Swedish and English, while the information for tenants is also available in Latvian and Lithuanian.

"It feels gratifying to be able to present a completely new website just before Christmas where all our stakeholders can find current and relevant information about Eastnine", says Britt-Marie Nyman, Eastnine's CFO.
