

Cleantech Invest portfolio firm Enersize closes deal for installation at Scania Södertälje plant

Enersize has entered into an agreement to install their system for measuring and analyzing industrial compressed air systems in Scania's Södertälje factory.

Enersize has now signed 7 new contracts of their system for measuring, analyzing and optimising compressed air whereof 6 in China this year.

Cleantech Invest CEO Alexander Lidgren comments:

"Installations in bigger factories on European soil is important for Enersize and to install the new software at a reference customer like Scania is the best possible start of European market growth."

Cleantech Invest owns 37.7% of Enersize.
