

Nakul Virat appointed new Chief Sales Officer at Incell

Press release: Tuesday August 4, 2020

Nakul Virat has been appointed as the new global Chief Sales Officer at INCELL® International. In his role as CSO, Nakul Virat will lead the sales team to further grow Incell's business. Nakul Virat brings extensive international experience of the telecom industry and sales performance.

Incell has been growing rapidly since its inception with an install base of over 250,000 battery modules in over 50 countries. Our customers have come to trust and depend on our products and people. As we start to scale our business and grow Incell to be the leading battery company in the telecom segment globally, we are investing in senior talent to help us in our journey.

To continue this journey, we are extremely pleased to announce the appointment of Nakul Virat as our Global Chief Sales Officer. Nakul comes onboard with a strong entrepreneurial and growth mindset with a customer focus attitude. He brings a wealth of relevant industry experience and has a history of multinational high sales growth. Nakul will drive the Incell growth curve and scale it to become the number one battery OEM globally by creating value for its customers.

"I am impressed by Incell's innovative technology and customer focus." comments Nakul Virat. "I am very motivated and excited to join the company and look forward to building on what the talented team has already achieved."

About Incell

Incell creates world-leading smart and sustainable lithium power back-up solutions for the global telecom market. In a world where everything is connected, the connection can never go down. The connected world needs great power back-up. And lots of it. With headquarters and R&D in Sweden, manufacturing in Mexico, sales offices in the United States and global sales channels, we serve telecom customers around the world. Since 2015 we've grown to over 300 people worldwide. We have doubled our sales every year. Our focused strategy to serve the telecom

industry with the best designed and engineered telecom power back-up solution has proven itself. We are considered the leader in our industry. In less than five years we have installed products in more than 50 countries and on all continents. We power telecom systems in all climate zones from the equator to the Arctic.
