### **About Mangold Insight**

*Mangold Insight is Mangold Fondkommission's commissioned analysis service whose purpose is to contribute to new investor perspectives and raise the stock market's eyes for small and medium growth companies listed on the trading venues Spotlight Stockmarket, NGM, Nasdaq First North Growth Market and Nasdaq Stockholm. The assignment analyses can then be accessed by investors free of charge and without membership via Mangold Insight's website <https://mangold.se/mangold-insight/>.*

### **About Alzinova AB**

*Alzinova AB is a Swedish clinical-stage biopharma company specializing in the treatment of Alzheimer's disease targeting neurotoxic amyloid- $\beta$  oligomers. The lead candidate, ALZ-101, is being developed as a therapeutic vaccine for the treatment of Alzheimer's. Alzinova's proprietary A $\beta$ CC peptide™ technology enables the development of disease-modifying therapies that target the toxic amyloid- $\beta$  oligomers involved in the onset and progression of the disease with high precision. Alzheimer's is one of the most common and devastating neurological diseases globally, with of the order of 40 million people afflicted today. In addition, the antibody ALZ-201 is in early preclinical development, and the ambition is to expand the pipeline further. The company's Certified Advisor on Nasdaq First North Growth Market is Corpura [info@corpura.se](mailto:info@corpura.se) +46 768-532 822.
