

Press Message May 9, 2018

## Brighter strengthens its financing with 0,9 MSEK through exercise of warrants.

The second exercise period for Brighter's warrants of series TO3 is now completed. The company thereby strengthens its financing with 884 444 SEK, representing 221,111 new shares.

The subsequent four exercise periods are:

11 - 25 October 2018

11 - 25 April 2019

11 - 25 October 2019

10 - 24 April 2020

Those who subscribed in this exercise period have now obtained Interim Shares. Once the registration has been completed with the Swedish Companies Registration Office, conversion of the interim shares will automatically take place without further notice to the holders. The conversion is expected to occur within approximately one week from the completed registration. The interim shares will not be listed for trading.

Through this warrant exercise the number of shares and votes in Brighter will increase by 221,111 to a total of 66,978,124.

### About Brighter

Brighter is a Swedish-based company that, from a unique IP portfolio, creates smart solutions for one of healthcare's biggest challenges: changing patient behavior. Chronic diseases such as diabetes are rapidly increasing, and account for an increasing share of healthcare costs globally. Brighter's Business Model and Multi-Sided Market Platform - The Benefit Loop™ - is based on the fact that many special interests create value for each other. By increasing access to valid health data, Brighter creates value for all stakeholders in the care chain: patients and their close associates, healthcare providers, research institutes, the pharmaceutical industry, and society as a whole. ### About Actiste

Brighter's solution Actiste® handles most of the self-monitoring and treatment of insulin-treated diabetes in a single easy-to-use device. Measurement of glucose levels, insulin injections, automatic logging, and timing of all activities are performed from a single unit. Actiste is connected via an autonomous and secure mobile connection, and information can be automatically shared with selected recipients through The Benefit Loop®, Brighter's open cloud-based service where data is collected, processed and analyzed with patient consent.

Validated user-generated data, such as glucose levels or insulin doses, can be automatically transferred electronically to many different constituents. The patient selects when and how data is shared and who will have access to it. Through The Benefit Loop, different services can motivate patients with chronic illnesses to change their behavior, which can save lives, reduce relatives' concerns, and release enormous healthcare resources.
