QuickCool is a Swedish medical technology company, whose business concept is to save lives and prevent brain damage in acute ischemia (Inadequate blood supply to the brain) by developing and providing a unique and globally patented cooling system, the QuickCool SYSTEM. QuickCool is active in the fast-growing market, Targeted Temperature Management (TTM), for brain-protective cooling treatment of

patients with e.g. acute cardiac arrest and stroke. QuickCool's solution protects the brain by cooling in the nasal cavity and thus takes advantage of the innate heat exchanger in the nose. QuickCool's Intranasal method offers gentle and uninterrupted cooling treatment for sedated patients. QuickCool is listed on Spotlight Stock Market and conducts its business at Ideon Science Park in Lund. For more Information, please refer to www.quickcool.se
