

QuickCool AB (publ): QuickCool AB requests an extra tranche of convertible loan, in order to off-set a promissory note that was issued in January 2019, from European High Growth Opportunities Securitization Fund

QuickCool AB (Publ) ("QuickCool" or the "Company") requests an extra tranche of convertible loan amounting to SEK 2 M from European High Growth Opportunities Securitization Fund in order to offset a promissory note that was issued on 28 January 2019, in accordance with the financing solution announced by Quickcool through a press release on 21 June 2018.

Convertible Instruments

The board has resolved, based on the general meeting's authorization, to request the issuance of the seventh tranche of convertible loan amounting to SEK 2 million by issuing convertible instruments. The convertible instruments can be converted into shares of QuickCool. European High Growth Opportunities Securitization Fund has the sole right to subscribe for the convertible instruments by offsetting the entire loan. The convertible instruments are issued at a subscription price equal to one hundred percent of their aggregate nominal value.

The convertible bonds carry no interest and have a maturity of 12 months as from their registration with the Swedish Companies Registration Office, if not converted prior to that date. The conversion price per new share shall correspond to 90 per cent of the lowest daily VWAP according to Spotlight Stock Market's market official price list for the shares in QuickCool during the fifteen (15) trading days preceding the conversion date.

Warrants

The board has further resolved, based on the general meeting's authorization and with deviation from the shareholders' pre-emptive rights, to issue 260 869 warrants attached to the convertible instruments. Each warrant entitles European High Growth Opportunities Securitization Fund to subscribe for one new share in QuickCool, during three years as from their date of registration with the Swedish Companies Registration Office, at an exercise price of SEK 2,30 per share. The warrants are issued free of charge. Upon full exercise of the warrants, QuickCool will be provided with up to SEK 600,000, corresponding to 30 percent of the nominal amount of the convertible bond loan. The terms and conditions for the warrants include customary provisions on recalculation of the exercise price in connection with rights issues etc.

The board's issue resolutions have been made based on the authorization from the extraordinary shareholders' meeting on 20 June 2019.

This information is such that QuickCool AB is required to make public in accordance with the EU's market abuse regulation (MAR). The information was made publicly available by the Company's contact person on 24 July, 2019.

Quickcool is a Swedish medical technology company, whose business concept is to save lives and prevent brain damage in acute ischemia (Inadequate blood supply to the brain) by developing and providing a unique and globally patented cooling system, the Quickcool SYSTEM. Quickcool is active in the fast-growing market, Targeted Temperature Management (TTM), for brain-protective cooling treatment of patients with e.g. acute cardiac arrest and stroke. QuickCool's solution protects the brain by cooling in the nasal cavity and thus takes advantage of the innate heat exchanger in the nose. QuickCool's Intranasal method offers gentle and uninterrupted cooling treatment for sedated patients. Quickcool is listed on Spotlight Stock Market and conducts its business at Ideon Science Park in Lund. For more Information, please refer to www.quickcool.se
