

IMMIXGROUP WINS RED HAT NORTH AMERICA PARTNER AWARD

immixGroup named Catalyst Partner of the Year

McLean, Va, Monday, May 9, 2016 – immixGroup, Inc., an Arrow company that helps technology companies do business with the government, announced that it was named Catalyst Partner of the Year by Red Hat, a provider of open source solutions. This award is part of the annual Red Hat North America Partner Awards, which were announced during the 2016 Red Hat North America Partner Conference in New Orleans.

immixGroup was honored for its dedication in providing innovative solutions to Red Hat's public sector organization and its partner ecosystem for the past three years. immixGroup tapped into its platform of services, which includes market intelligence and analysis, lead generation, channel development, and customized marketing programs, which have all worked together to grow Red Hat's business.

"immixGroup is a valued channel partner to Red Hat, and we are pleased to honor them with this well-deserved award," said Mark Enzweiler, senior vice president, Global Channel Sales and Alliances, Red Hat. "We look forward to our continued relationship with immixGroup and helping them provide the best in open source solutions to their customers."

Red Hat's 2015 North America Partner Awards honor both commercial and public sector partners for their dedication to successfully delivering innovative open source solutions to customers.

ABOUT IMMIXGROUP, INC.

immixGroup, an Arrow company, is a value-added distributor that helps technology companies do business with the government. immixGroup enables IT manufacturers and solution providers to grow their public sector business and accelerate the sales cycle. Since 1997, immixGroup has delivered the specialized resources and expertise these companies need to increase their revenue, support their demand creators, and operate efficiently in the complex public sector IT market. Government agencies at the federal, state, and local levels trust immixGroup to provide reliable access to a wide range of enterprise software and hardware products through their preferred contracts and business partners.
