

Meet us at Energy Storage Europe Fair in Dusseldorf

At this year 's show – which takes place in Dusseldorf, Germany from March 14-16 - you will see the latest within energy storage technology and sustainable energy. Nilar will display its modular power technology with bi-polar NiMH energy storage. You will find us in Hall 8B, booth E37. Welcome!

Nilar is the leading provider of energy storage solution for today's infrastructure. The unique bi-polar construction of the battery pack provides reliable storage and a stable power supply from a lighter, safer and greener unit. Furthermore, the modular design allows packs to be coupled in parallel and series to deliver the power and capacity required to meet the needs of smart grid, telecom base stations, home solutions and other applications.

Since it was founded by leading experts from the battery industry, Nilar has always sought to challenge the norms of the industry. From its two R&D departments in the USA and Sweden, the company has revolutionized energy storage and power supply technology. Today, manufacturing is handled at the company's state-of-the-art factory in Sweden.
