Press release

Construction Simulator 2

Welcome to the USA: **Construction Simulator 2** now available in the App Store® and on Google Play®!

Moenchengladbach/Germany, March 23, 2017 – astragon Entertainment GmbH and weltenbauer. Software Entwicklung GmbH are very happy to announce the release of the most recent part of their internationally popular Construction Simulator franchise today. **Construction Simulator 2** for iPhone® and iPad® as well as smartphones and tablets using the Android™ operating system is now available in the Apple® App Store® and on Google Play®!

Construction Simulator 2 takes the player to the United States of America. As the owner of a small construction company in the fictional state of Westside Plains he will be able to seize his chance to become the biggest real estate tycoon in the whole region. In order to achieve this goal the player will be able to access 36 originally licensed vehicles and construction machines by well-known makers such as Caterpillar®, Liebherr®, Palfinger®, Bell Equipment, ATLAS® and STILL during the course of the game.

Thanks to this great variety of vehicles and machines as well as challenging building contracts and missions players will not only be able to excavate building pits, control gigantic cranes and pour concrete to their heart's content, but also tackle road construction tasks for the first time in the history of the **Construction Simulator** series – a gameplay element which has been long desired by fans of the popular franchise.

After founding his very own company the freshly minted businessman will be able to explore the open, freely accessible game world and gain experience by successfully completing first construction jobs. These will be not only be awarded with experience points, which the player can use to improve selected skills, but of course also with appropriate funds to further expand the company and its vehicle fleet.

By branching out his business into new regions bit by bit the player will also be able to tackle larger and more lucrative construction contracts overtime.

These challenges include smaller gardening jobs, the construction of residential buildings, apartment blocks and industrial warehouses as well as the transport of materials or machines and the repair of sewage canals. And this is only the beginning: The renovation of crumbling streets, the reconstruction of a railway bridge, unique special missions as well as challenging development tasks to gain new building plots for the growing city await ambitious players in **Construction Simulator 2**.

The simulation game's huge vehicle fleet includes powerful machines such as the bulldozer D8T, the backhoe loader 430F2 and the dump truck 745C by Caterpillar as well as the PK 27002 SH loading crane by Palfinger, the 81K fast-erecting crane and the LTM 1300 mobile crane by Liebherr, the wheel loader L310 by ATLAS and the articulated B45E dump truck by Bell Equipment. In the event of a budget shortage - or if the player wishes to test a vehicle before its purchase - there is also the possibility to hire equipment from one of the vehicle dealers.

All originally licensed vehicles of **Construction Simulator 2** at a glance:

Caterpillar®: 430F2 backhoe loader, 349F hydraulic excavator, M318F wheeled excavator, AP1055F asphalt paver, 140M3 motor grader, CS56B vibratory soil compactor, CT660 concrete mixer, PM620 cold planer, 950M wheel loader, CB44B tandem vibratory roller, CT660 dumper, CT660 flatbed truck with crane, D8T bulldozer, 745C articulated truck, CT660 truck

Liebherr®: 150 EC-B flat-top crane, L1 fast-erecting crane, LTM 1060 mobile crane, LTM 1300 mobile crane, PR 736 crawler tractor, R 936 crawler excavator, R 956 crawler excavator, 81K fast-erecting crane, A 918 wheeled excavator, L 546 wheel loader, 41M5 concrete pump

Palfinger®: PK 27002 SH loading crane

Bell Equipment: B45E articulated dump truck

ATLAS®: 160W wheeled excavator, L310 wheel loader, 340LC hydraulic excavator

STILL: R70-50 forklift

Miscellaneous: HS7T semitrailer low loader, HS7P semitrailer flatbed, HS7H semitrailer heavy duty, HS7M semitrailer halfpipe

Construction Simulator 2 is currently deemed to be the most comprehensive construction simulation game for smartphones and tablets. In addition to many new vehicles as well as road construction and enhanced graphics **Construction Simulator 2** offers many brand new features in comparison to its internationally successful predecessor. Examples are the intuitive user menu, a refined economic system or vehicle maintenance options. The huge, freely accessible game world of the idyllic Westside Plains, smooth day and night cycles as well as interesting missions will offer an impressive gameplay experience to all fans of the construction industry.

Construction Simulator 2 for iPhone®, iPad® as well as smartphones and tablets using the Android™ operating system is available now for 4.99 EUR/4.99 USD/4.99 GBP in the Apple® App Store® and on Google Play®.
