

Press release

Construction Simulator 3

Gardening and landscaping with compact machines by Bobcat

Moenchengladbach/Germany, March 01, 2019 – Today astragon Entertainment and the developer team of weltenbauer. SE are happy to announce another new license partner of **Construction Simulator® 3** for iPhone® and iPad® as well as smartphones and tablets using the Android™ operating system. For the first time in the history of the popular Construction Simulator game series, **Construction Simulator® 3** will offer players the opportunity to operate three brand new compact construction machines of the well-known brand Bobcat. **Construction Simulator® 3** will be released on the Apple® App Store® and on Google Play® in spring 2019.

The official trailer presenting the new Bobcat machines can be found here:

<https://youtu.be/CO8e43p-S9I>

In **Construction Simulator® 3** players will be able to use an extensive vehicle fleet consisting of a wide range of construction vehicles and machines. Within a huge and freely drivable open world, players can be looking forward to trying their hand at many different construction jobs in the fictional European city of Neustein and its surroundings. Virtual builders will start out with smaller delivery and earth moving works as well as gardening and landscaping. Then, with more experience, they will move on to the construction of houses and office buildings before tackling even more challenging tasks such as road construction and bridge building. Different special contracts will also offer a great variety of interesting additional tasks.

Thanks to the partnership with Bobcat, **Construction Simulator® 3** will include officially licensed vehicles by the famous brand, which is especially known for its versatile compact loaders as well as other construction machines. The game will offer players access to the following vehicles: The Bobcat S550 skid-steer loader, the Bobcat T590 compact track loader and the Bobcat E55 compact excavator.

In addition to the new gardening and landscaping machines by Bobcat, **Construction Simulator® 3** will also include other famous manufacturers such as Caterpillar, Liebherr, MAN, Palfinger, Bell, STILL, ATLAS and MEILLER Kipper, which were already included in the game's predecessors, as well as some brand-new license partners such as WIRTGEN, VÖGELE, HAMM, BOMAG and CASE.

Construction Simulator® 3 for iPhone® and iPad® as well as smartphones and tablets using the Android™ operating system will be released in spring 2019 on the Apple® App Store® and on Google Play®.
