Press Release

POLICE TACTICS: IMPERIO – New Release date!

Investigations take longer!

Mönchengladbach/Germany, February 9th, 2016 – The police of Newport Falls has got their hands full in the fight for law and order in the streets of the gloomy metropolis. To face the dark deeds and to ensure public security again, the local police station needs some more preparations against the organized crime. The games publisher **astragon Entertainment** today announced, that the official release date of **POLICE TACTICS: IMPERIO** was postponed on **August 3rd, 2016**.

In the thrilling real time strategy game **POLICE TACTICS: IMPERIO**, the players slip into the role of the young officer Harvey Croft and assume the position of the city's chief of police. As the first line of defense in the fight against organized crime the whole potential of his police units is at his disposal: Patrolmen have to be sent onto the streets and crime scene investigators as well as special units have to be trained. Consulting witnesses and collecting clues and hints is also part of the daily business as a law enforcer. Beside different unit-types, the players can of course fall back on various realistic operational vehicles, which can appear in the look of either German or US-Police units.

In the fight against organized crime the deployment of policemen will not be enough – an essential part of the work as police chief is the management and ideal usage of the department's budget.

In **POLICE TACTICS: IMPERIO** players will climb the career ladder to the top and unlock more and more city districts, units and upgrades. On their dangerous path they will solve thrilling cases, investigate felonies and prevent daily infractions all over the city in a dynamic day- and night cycle.

Will the city shine in new splendor again soon and will the organized crime be struck back? Players will find out in **POLICE TACTICS: IMPERIO** on **August 3rd, 2016**.
