NetEnt opens new chapter in Fairytale Legends series with launch of Hansel and Gretel

NetEnt, the leading provider of digital gaming solutions for online casinos, has released the second title from its fabulous Fairytale Legends trilogy, Hansel and Gretel™.

The 5-reel, 3-row, magic-filled video slot takes players into the deepest, darkest woods as they try to help the siblings make their way through the thicket – and stay safely away from the wicked witch.

Hansel and Gretel is packed with random and bonus features, free spins, stacked wild re-spins, and wild substitutions. The thrilling gameplay is wrapped in a stunning NetEnt visual production and features a series of beautiful animations that bring the classic story to life.

Simon Hammon, Chief Product Officer of NetEnt comments *“The latest chapter in our Fairytale Legends series is another thoroughly enchanting one. With its engaging features and breath-taking design, the game demonstrates NetEnt’s creative capabilities at their best. Hansel and Gretel is a fantastic follow-up to Red Riding Hood and we look forward to continuing the story later in the year – watch this space.”*

Hansel and Gretel follows the October 2016 launch of Red Riding Hood. The third and final instalment of the Fairytale Legends series will be released in later this year.
