

# Bittium Strengthens Its Operations in the United Kingdom

**Bittium Corporation**  
Press Release

## Bittium Strengthens Its Operations in the United Kingdom

*Bittium Corporation press release on 8 August 2025, at 8.00 am (CEST +1)*

Bittium has established a legal entity in the United Kingdom (UK). Local presence in the UK strengthens the company's position and supports operational activities with local customers and partners.

To manage the UK company's operations, Bittium has appointed Mr. Dean Aldridge. Mr. Aldridge is responsible for the Defense & Security business segment's sales operations in the UK. He transfers to Bittium from Wind River Aerospace & Defense, where he was responsible for sales. Prior to this, Mr. Aldridge has been acting in various business and sales management positions in the defense industry. Prior to his civilian career, Mr. Aldridge served as a commissioned officer in the UK military (Royal Navy Fleet Air Arm) for over 22 years.

"The decision to strengthen our operations in the UK is part of our strategic target to grow in the European market. Over the last few years, we have been building up our cooperation network with significant players in the defense industry. Growing the local presence in strategically important areas is necessary for international growth. Local presence in the UK also supports our objective to participate in tactical communication tenders together with BAE Systems. I am very happy to be able to share the announcement about Mr. Aldridge starting to lead our UK operations. His extensive experience both in the UK military and in exporting defense technology products and solutions to international markets strengthens our position", says Mr. Tommi Kangas, Senior Vice President, Defense & Security Business Segment at Bittium.

### **Bittium - Defense & Security**

As a trusted supplier in the Defense & Security market with 40 years of experience in advanced radio communication technologies, we provide next-generation resilient and mobile tactical communications systems for defense forces and secure communication solutions for governments and authorities. Our products and systems for tactical communications bring broadband data and voice seamlessly to all troops across the battlefield. The offering is completed by mobile devices and cyber security solutions certified up to CONFIDENTIAL and NATO Restricted levels.

In addition to the products and systems supplied to the Defense & Security market, Bittium offers solutions focused on measuring and processing of biosignals as well as R&D services and wireless embedded solutions. Bittium's net sales in 2024 were EUR 85.2 million and operating profit EUR 8.6 million. Bittium is listed on Nasdaq Helsinki. [www.bittium.com](http://www.bittium.com)
