Press release

Airport Simulator 2

Gripping airport simulation for iOS® and Android™ ready for take-off!

Moenchengladbach/Germany, December 16th, 2015 – „Ready for take-off“ is the motto of **Airport Simulator 2** for iPhone® and iPad® as well as smartphones and tablets using Android™, which is available now in the respective mobile stores. The challenging simulation by astragon will offer players the unique chance to become a true hero of the tarmac!

Assuming the role of an employee working at an international flight hub, the player will master numerous diverse missions around the airport and the job of aircraft handling. **Airport Simulator 2** includes five popular aircraft types and 14 different service vehicles, therefore offering a broad range of tasks on the tarmac and the airport ramp. This not only encompasses the refueling and handling of the plane but also the transport and proper loading of luggage, cargo and catering containers. Planes will be directed to their correct parking position with the help of the follow-me car and the player can even get behind the wheel of an airport bus and drive passengers to their respective plane or terminal. He will also be responsible for bringing the ground power unit to its required position as well as readying the mobile passenger stairs or the jet bridge for use. As soon as cool weather sets in, the virtual airport employee will also be able to prove his skill at the removal of ice and snow – of course with the fitting equipment!

Realistic aircraft and vehicle traffic, different weather conditions such as snow, rain and sunshine, as well as a day-night cycle will let the player experience authentic airport atmosphere. A dynamic mission system will provide lots of variety on the virtual airfield.

As time is always an important factor at an airport, the player will not only need to master the skillful handling of the diverse service vehicles, but also perform his tasks with care and the necessary speed. Expensive delays should be avoided at all costs!

In the case that vehicles will be no longer sufficiently equipped for a task, they should be driven to the vehicle hangar where they can be upgraded and improved. In this way the player will always be able to keep up with the steadily increasing demands and time-pressure of his aircraft handling job. Skill and speed will make the true hero of the tarmac, who will not only be rewarded with awards, but also valuable trophies, making *Airport Simulator 2* into a long-term motivating game.

Airport Simulator 2 is available now for iPhone®, iPad® as well as smartphones and tablets using Android™ for a starting price of 0.99Euro/0.99 USD/0.79 GPB in the App Store® as well as on Google Play™.

About astragon Entertainment GmbH and astragon Sales & Services GmbH

The astragon Entertainment GmbH and the astragon Sales & Services GmbH have emerged as the core of the newly created astragon group formerly consisting of the two games publishers astragon Software GmbH (founded in 2000) and rondomedia Marketing & Vertriebs GmbH (founded in 1998) in July 2015. Today, the astragon group is the second largest producer and marketer of computer games in Germany (number of units CD-ROM/DVD as per GfK Media Control, complete annual evaluation 2014).

The main focus of the group's product range lies with casual games and technical simulation games for PC. Adventure games and economy simulations complement astragon's diverse portfolio. The popular game series "Big Fish Games", "play+smile" and "Best of Simulations" form three strong umbrella brands by astragon in retail market. Additionally to the distribution to retail partners in the German language area by the astragon Sales & Services GmbH, products are also marketed internationally under license and via download by the astragon Entertainment GmbH. Games for consoles, mobile devices as well as smartphones and tablets complete astragons product range. For more information, please visit <http://www.astragon-entertainment.de/en/>.
