

Press release 10th January, 2020

RhoVac receives approval in Germany and Belgium to start clinical phase IIb study in prostate cancer

RhoVac AB ("RhoVac") announces today, on 10th January 2020, that the company has received approval from Belgian FAMHP (Federal Agency for Medicines and Health Products) and German Federal Institute for Vaccines and Biomedicines for starting the clinical phase IIb study in prostate cancer, a multicenter study entitled RhoVac-002 ("BRaVac"). The phase IIb study is an international, multicenter study, which is expected to recruit more than 175 patients in EU, as well as in the United States. RhoVac has previously received approval Denmark and Finland.

BRaVac is a randomized, placebo-controlled and double-blind study, with the primary objective of evaluating if and to what extent treatment with the drug candidate RV001 can prevent or limit the development of advanced prostate cancer after curative intent therapy measured as a limited development of PSA (Prostate Specific Antigen) in actively treated patients compared to the control group (placebo group). The Phase IIb study is an international multicenter study, which is expected to recruit more than 175 patients in EU, as well as in the United States. The ambition is for all patients to be recruited by end Q3 2020. The results reporting on the primary objective of the study is expected during H2 2021. RhoVac has previously received CTA approval in Denmark and Finland.

About RhoVac AB

RhoVac AB conducts research and development of immunotherapeutic drugs. The company's main focus is the development of a therapeutic cancer vaccine with the potential to prevent or limit metastasis in cancer. RhoVac's top-line results from the clinical phase I/II study has been published in August 2018. RhoVac has its head office at Medicon Village in Lund, Sweden. The research has been conducted since 2007 primarily at the University Hospital in Herlev, Denmark, by a world-class research team in its niche. RhoVac is listed on Spotlight Trade Market, Sweden, a Multilateral Trading Facility (MTF), since March 2016. The share is traded under the ticker RHOVAC. Read more at www.rhovac.com
