Itiviti Named Best Low-Latency Trading Network

Recognized for Innovation and Connectivity Excellence at Buy-Side Technology Awards 2020

London, November 10, 2020, Itiviti, a leading trading technology and service provider to financial institutions worldwide, today announced that [NYFIX](#), their Order Routing Network (ORN), has won the Best Low-Latency Trading Network category during the WatersTechnology [Buy-Side Technology Awards 2020](#).

“We strive for the continual innovation and advancement of our technology,” said Linda Middleditch, Head of Product Strategy and Engineering, Itiviti. “This year we have redoubled that effort and overhauled the entire infrastructure that supports NYFIX to further increase the reliability and resilience of the platform. We’ve also made a sizable investment in the [cloud transformation](#) of the platform through AWS. Itiviti isn’t looking to keep up with technological advancements in the FinTech space, we are looking to set the pace.”

NYFIX provides near real-time access to practically every major source of liquidity across all asset classes. And Itiviti’s recent investment in NYFIX enables the firm to further support the electronification of the Fixed Income market by supporting inventory transparency, price discovery, and the most efficient use of the messaging workflow.

“We congratulate Itiviti on this award,” said Victor Anderson Global Content Director of WatersTechnology. “Itiviti’s continued investment in innovation is clear and we hope to see them continue to lead the way in the industry.”

NYFIX connects more than 1,100 buy-side and 600 sell-side participants and routes a daily volume of 28 million+ messages. NYFIX is the first ORN to offer both Hub & Spoke and Point-to-Point connection services, allowing its members to optimize trading efficiency across all asset classes and phases of the trade lifecycle.
