

Interim Report

Third Quarter of 2026

Interim Report

Third Quarter | July–Sep 2026

- Net sales amounted to TSEK 282,824 (215,349), which is an increase of 31.3% compared to the same period last year.
- The gross margin amounted to 56.0% (52.6).
- Operating profit before depreciation (EBITDA) amounted to TSEK 99,961 (68,005), which corresponds to an operating margin before depreciation of 35.3% (31.6).
- Operating profit (EBIT) amounted to TSEK 72,131 (45,075), which corresponds to an operating margin of 25.5% (20.9).
- Earnings per share before dilution amounted to SEK 4.98 (3.15).

Nine Months | Jan–Sep 2026

- Net sales amounted to TSEK 865,324 (646,435), which is an increase of 33.9% compared to the same period last year.
- The gross margin amounted to 55.6% (52.1).
- Operating profit before depreciation (EBITDA) amounted to TSEK 320,902 (213,714), which corresponds to an operating margin before depreciation of 37.1% (33.1).
- Operating profit (EBIT) amounted to TSEK 240,703 (149,558), which corresponds to an operating margin of 27.8% (23.1).
- Earnings per share before dilution amounted to SEK 16.74 (10.50).

(Comparative figures in parentheses refer to the corresponding period in the previous year.)

Financial overview

For definitions of key figures, see the table on page 16.

Value growth in installations

%	Q3 2026	Q2 2026	Q1 2026	Q4 2025	Q3 2025	Q2 2025	Q1 2025	Q4 2024
Global	26.0	27.5	34.1	45.5	44.4	46.7	44.1	36.0
Sweden	19.3	21.1	20.8	29.4	29.3	31.6	29.8	29.7
Norway	30.7	33.5	51.2	70.7	64.6	67.0	64.1	39.0
Finland	38.1	35.1	29.7	50.9	36.6	39.3	37.5	42.6
The Netherlands	56.3	58.4	76.5	87.2	85.1	103.0	86.4	89.1

The figures show the value growth in installations compared to the same quarter of the previous year, which is the best measure of the company's underlying organic growth, as it excludes variations in inventory held by wholesalers and electricians. An installation is defined as an installed unit multiplied by the price.

Net sales

Operating profit/EBIT

Comments from the CEO

The third quarter was a very successful quarter, with revenue growth of just over 31% and an increase in operating profit of 60%. This is fully in line with our communicated strategy of strong organic growth combined with increased profitability.

During the quarter, we increased the production rate of the LED panel LPN-01, which was launched during the first half of the year. We can now meet demand and are pleased with the initial reception. As expected, sales cycles are longer, as the product is often planned into projects scheduled further into the future. We therefore expect a more gradual market establishment of LPN-01, which is a purely commercial product, compared with the rest of our portfolio, which is primarily aimed at residential environments.

We have also communicated that we will launch the tracklight TRL-01 together with the commercial motion sensor CMS-01 at the beginning of next year. These are two products that we believe will strengthen our commercial offering, with TRL-01 also expected to become a new high-volume product for us. Together with previously launched products within the platform for commercial use, these products create a strong foundation for our continued establishment in the commercial market. We see significant potential here and expect to begin a new growth journey.

2026 is coming to an end, and from 2027, the company will enter a new chapter, where our international expansion in Europe will become an increasingly important driver of continued growth. The expansion will be supported by several exciting product launches, which we will share more about at a later stage.

I would like to thank the entire team for a well-executed quarter.

Babak Esfahani
CEO of Plejd AB

With simple scheduling and presence control, energy savings are achieved, which is not only cost-effective but also beneficial for the environment. The increasing use of mobile technology reinforces the trend further, as smartphones enable simple and efficient configuration and control of smart systems. At the same time, the acceptance is increasing for the use of mobile applications for this purpose.

Plejd is a leading Nordic supplier of smart lighting and other smart products. By focusing on the user experience, Plejd makes smart solutions easy and available to everyone.

Financial and other information

Events during the quarter

Plejd presents the Tracklight TRL-01 and the LED strips LST-02 and LST-03 at Elmässan in Kista.

Significant risks and uncertainties

Plejd's operations and results are impacted by a series of external and internal factors. The company management works continuously to identify risks and to assess how each respective risk should be managed. The risks can be categorized into financial risks, market-related, and operation-related risks.

For a more detailed description of these risks, see Plejd's annual report 2025.

Transactions with related parties

There were no such transactions during the period.

Number of shares

At the end of the period, number of shares amounted to 11,331,304 (11,178,720).

Liquidity and financing

Liquidity at the end of the period was (TSEK)

Cash and cash equivalents	200,041
Total available liquidity	200,041

Personnel and organization

At the end of the period, number of employees amounted to 284.

In addition to this, the company engages external consultants for specific projects and temporary staff for its own production.

Number of employees Q3 2025	211	15	3	5	4	-	238

Financial position and performance | Group

Revenues, costs and profit

Third Quarter | July-Sep

Net sales amounts to TSEK 282,824 (215,349), which represents growth of 31.3% compared with the same period in the previous year. The increase in net sales is due to growth in both installations and inventory build-up at wholesalers, driven by continued high demand for the company's products. Net foreign exchange for the period amounts to TSEK -294 (777).

Capitalized work for own account amounts to TSEK 26,575 (23,276), which is an increase compared with the same period in the previous year. The increase mainly relates to continued capitalization linked to the development of new products. The level reflects the company's ambition to constantly develop and improve new and existing products.

The gross margin amounts to 56.0% (52.6). The gross margin is higher than in the same period in the previous year. The increased gross margin is partly due to increased in-house production, while the initially lower gross margin previously seen on several products has developed as the products have reached a more mature phase.

Operating profit amounted to TSEK 72,131 (45,075). The increase is primarily attributable to higher net sales, where the improved gross margin, combined with efforts to optimise the cost base, has created clear operating leverage. The operating margin therefore strengthened compared with the corresponding period last year.

Nine Months | Jan-Sep

Net sales amounts to TSEK 865,324 (646,435), which represents growth of 33.9% compared with the same period in the previous year. The increase in net sales is due to growth in both installations and inventory build-up at wholesalers, driven by continued high demand for the company's products. Other operating income amounts to TSEK 21,409 (8,418) for the period as a result of foreign exchange gains. Net foreign exchange for the period amounts to TSEK 5,815 (3,269).

Capitalized work for own account amounts to TSEK 86,465 (76,371), which is an increase compared with the same period in the previous year. The increase mainly relates to continued capitalization linked to the development of new products. The level reflects the company's ambition to constantly develop and improve new and existing products.

The gross margin amounts to 55.6% (52.1). The gross margin is higher than in the same period in the previous year. The increased gross margin is partly due to increased in-house production, while the initially lower gross margin previously seen on several products has developed as the products have reached a more mature phase.

Operating profit amounted to TSEK 240,703 (149,558). The increase was primarily driven by higher revenue, where the improved gross margin, combined with continued efforts to optimize the cost base, created a clear operating leverage effect. As a result, the operating margin strengthened compared with the corresponding period last year.

Cash flow, investments and available liquidity

Third Quarter | July-Sep

Cash flow from operating activities before changes in working capital increases significantly to TSEK 93,184 (63,302), representing an increase of 47.2% compared with the same period in the previous year. The increase was primarily driven by strong revenue growth.

Changes in working capital amounts to TSEK -84,977 (-9,691), and cash flow from operating activities amounts TSEK 8,207 (53,612) during the quarter, an increase of 84.7%. The decrease is primarily attributable to increased inventory levels in relation to both higher in-house production and higher net sales, as well as a seasonal increase in trade receivables.

During the quarter, investments affecting cash flow amounts to TSEK -39,058 (-29,075). These investments primarily consisted of capitalized development time related to new products and increased by 34.3% compared with the same period in the previous year. The focus remains on the continuous development and improvement of both products and software.

Cash flow from financing activities amounts to TSEK -8,853 (-7,274). The amount relating to leasing is higher than in the previous year as a result of investments in lease-financed machinery in order to increase own production.

Nine Months | Jan-Sep

Cash flow from operating activities before changes in working capital increases significantly to TSEK 290,012 (197,185), representing an increase of 47.1% compared with the same period in the previous year. The increase was primarily driven by strong revenue growth and a strong operating profit.

Changes in working capital amounts to TSEK -106,008 (-37,539), and cash flow from operating activities amounts TSEK 184,004 (159,646) during the period, representing an increase of 15.3%. The increase is primarily attributable to higher growth in net sales and operating profit.

During the period, investments affecting cash flow amounts to TSEK -110,444 (-86,024). These investments primarily consisted of capitalized development time related to new products and increased by 28.4% compared with the same period in the previous year. The increase during the period was partly attributable to development activities ahead of the launch of LPN-01, while the ambition to continuously develop and improve both products and software remains unchanged.

Cash flow from financing activities amounts to TSEK 28,195 (-20,626), which primarily consists of proceeds from the exercise of warrants under the warrant program that expired during the second quarter. In addition, the item relates to repayments of lease liabilities associated with leased assets. The amount relating to lease liabilities is higher than in the previous year due to investments in leased machinery to increase in-house production capacity.

Cash and cash equivalents at the end of the period amounted to TSEK 200,041 (95,315).

Notes

Note 1 | General information

Plejd AB (publ) ("Plejd"), corporate ID no. 556790-9477 is a Parent Company registered in Sweden with its registered office in Mölndal.

Unless otherwise stated, all amounts are reported in thousands of Swedish kronor (SEK '000s). Information in parentheses refers to the comparative year.

Note 2 | Summary of key accounting principles

The most significant accounting principles applied in preparing these consolidated financial statements are set out below. These principles have been applied consistently for all periods presented unless otherwise indicated.

Plejd's consolidated financial statements were prepared in accordance with the Swedish Annual Accounts Act, recommendation RFR 1 Supplementary Accounting Rules for Groups from the Swedish Financial Reporting Board, IFRS Accounting Standards and the interpretations of the IFRS Interpretations Committee (IFRS IC) as adopted by the EU. The consolidated financial statements were prepared using the cost method. The interim report was prepared in accordance with IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act.

Preparing reports in accordance with IFRS requires the use of some important estimates for accounting purposes. In addition, management must make certain assessments in the application of the Group's accounting principles.

The Parent Company applies RFR 2 Accounting for Legal Entities and the Swedish Annual Accounts Act. The application of RFR 2 means that the Parent Company, in the interim report for the legal entity, applies all IFRS and statements adopted by the EU to the furthest extent possible within the framework of the Swedish Annual Accounts Act, the Pension Obligations Vesting Act and taking into account the relationship between accounting and taxation.

Note 5 | Events after the end of the interim period

No events significant to the company have occurred after the end of the reporting period as of 30 September 2026.

Note 6 | Key financial indicators

In addition to the key financial indicators prepared in accordance with IFRS, Plejd presents key financial indicators not defined according to IFRS, such as Gross margin and EBITDA. These alternative performance measures are considered to be important results and performance measures for investors and other users of the interim report. The alternative performance measures shall be seen as a complement to, but not a replacement for, the financial information prepared in accordance with IFRS. Plejds definitions of these measurements that are not defined according to IFRS are described in this note.

Financial indicators	Definition	Objective
Operating profit (EBIT)	Profit/loss before tax excluding net financial items	Monitoring the earnings trend in the Group
EBITDA	Operating profit/loss excluding amortization, depreciation and impairment	Monitoring the earnings trend in the Group
Gross margin	Gross margin = gross profit/sales	Monitoring sales in relation to direct costs for products
Equity/assets ratio	Equity at the end of period in relation to total assets at the end of period	Monitoring the Group's long-term payment capacity
Cash and cash equivalents	Cash and bank assets and overdraft	Monitoring the Group's short-term payment capacity
Number of employees	Number of employees during the period. This item includes part-time employees	Monitoring the Group's growth in number of employees

Upcoming report dates

- Year-end report 2026 (28 January 2027).
- Interim report first quarter 2027 (8 April 2027).

Auditor's report

To the Board of directors in Plejd AB, corporate identity number 556790-9477

Introduction

We have conducted a limited review of the condensed interim financial information (interim report) for Plejd AB as of September 30, 2026, and the nine-month period ending on that date. The board of directors and the managing director are responsible for preparing and presenting this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our limited review.

The focus and scope of the limited review

We have conducted our limited review in accordance with the International Standard on Review Engagements ISRE 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A limited review consists of making inquiries, primarily of persons responsible for financial and accounting matters, performing analytical procedures, and other review procedures. A limited review has a different focus and a significantly smaller scope compared to the focus and scope of an audit conducted in accordance with ISA and generally accepted auditing standards. The review procedures taken in a limited review do not enable us to obtain the assurance that we would become aware of all significant matters that might have been identified in an audit. Therefore, the conclusion expressed based on a limited review does not have the assurance that a conclusion expressed based on an audit has.

Conclusion

Based on our limited review, nothing has come to our attention that causes us to believe that the interim report is not, in all material respects, prepared for the group in accordance with IAS 34 and the Annual Accounts Act and for the parent company in accordance with the Annual Accounts Act.
