

Change in shareholding of private reasons

The board member Christer Simrén has today informed Geveko and the Swedish Financial Supervisory Authority about change in number of Series B-shares in Geveko.

The shareholding has been changed from 360,000 shares of Series B to 180,000 shares.

Christer Simrén comment upon the change as follows: "I have a strong belief in Geveko as a leading company within horizontal road marking. The streamlining of the operations carried out in recent years was necessary and has created a base for the future. The reason for my change in shareholding is strictly private. I will remain in the Board and look forward to continuous positive development of Geveko".
