Please note that the notice of attendance at the AGM shall be submitted also if the shareholder wishes to exercise its voting rights at the AGM through proxy. A submitted power of attorney does not constitute notice of attendance. Each such shareholder shall elect a representative each to form the nomination committee along with the chairman of the board for the period through the end of the next AGM, or, if applicable, until a new nominating committee has been appointed. If any of these shareholders waives its right to appoint a representative, its right is transferred to the shareholder who, after these shareholders, has the largest share ownership until the nomination committee is complete. The nomination committee is also allowed to appoint an additional member to represent minority shareholders. If a member leaves the nomination committee before its assignment is completed a new member shall, if considered necessary, be appointed by the same shareholder who appointed the resigning representative, or, if this shareholder is no longer one of the three largest shareholders, by the new shareholder that belongs to this group.

The composition of the nomination committee shall be announced as soon as it is appointed, and no later than six months prior to the AGM. The board of directors proposes that the AGM authorises the board of directors to, on one or several occasions, during the period up to the next AGM, with or without deviating from the shareholders' preferential rights, resolve to issue new shares, convertibles and/or warrants. The increase of the share capital may correspond to a dilution of a maximum of 10 percent of the share capital at the time of the first use of the authorisation. The purpose of the authorisation is to, in a fast and efficient manner, be able to acquire companies, businesses, or parts thereof, broaden the company's ownership structure or improve the capital structure. Payment may be made in cash and/or with a condition to pay in kind or by way of set-off, or other conditions.

A resolution in accordance with the board of directors' proposal shall only be valid where supported by not less than two-thirds of both the votes cast and the shares represented at the AGM. The board

of directors shall have the right to make such minor adjustments in this resolution that may be necessary in order to register the authorisation with the Swedish Companies Registration Office.

Item 15: Proposal of the board of directors for a resolution on (A) implementation of Option Program 2023/2027 and (B) a directed issue of warrants and approval of transfer of warrants to fulfil the company's commitments under the option program and to secure social security charges

The board of directors proposes that the AGM resolves to implement an option program for key employees of the group – Option Program 2023/2027 – as set out below.

Background and reasons

Since 2018, the annual general meeting of the company has resolved on annually recurring incentive programs for the employees of the group, based on warrants or stock options issued to the participants. Following an evaluation, the remuneration committee has proposed to the board of directors, and the board of directors has now decided, to propose to the annual general meeting the implementation of a new incentive program based on stock options. The purpose of Option Program 2023/2027 is to reward long term commitments of key employees, to ensure that the company's long term value increase is reflected in the remuneration of the participants of the program, to contribute to the capability to recruit and retain competent employees and to otherwise increase shared incentives between key employees and the company's shareholders. Participation in the program will be offered to the employees which according to the board's assessment have the largest impact on the company's financial and operational development. The board of directors assesses that the aligned interests between the company and the participants which are created by the program are sufficient to promote the long-term value-creation of the company, which is why the program is not conditional upon any performance.

The board of directors intends to annually propose incentive programs.

In order to secure the company's commitments under Option Program 2023/2027 and the social security contributions connected therewith, the board of directors also proposes that the annual general meeting resolves on a directed issue of warrants and to approve the transfer of warrants in accordance with item B below.

Given the reasons set out above and the main terms and conditions set out below it is the opinion of the board of directors that the proposed Option Program 2023/2027 is reasonable and beneficial for the company and its shareholders.

(A) Proposal by the board of directors on resolution regarding implementation of Option Program 2023/2027

The board of directors proposes that the annual general meeting resolves to implement Option Program 2023/2027, according to the following main principles:

- a) Option Program 2023/2027 shall include issuance of no more than 580,000 stock options.
- b) Each stock option shall entitle the holder to subscribe for one new share in the company at a subscription price corresponding to 120 per cent of the volume weighted average transaction price (rounded off to the closest öre (SEK 0.01)) for the company's share on Nasdaq First North Growth Market during the five trading days following the date of publication of the company's interim financial report for the first quarter of 2023. The subscription price and the number of shares for which each stock option entitles the holder to subscribe may be subject to recalculation pursuant to a bonus issue, share split, new issue with preferential rights and similar measures, whereby conventional terms and conditions for recalculation shall be applied.
- c) Option Program 2023/2027 participants shall comprise no more than 80 employees of the company and its subsidiaries.
- d) Stock options will be distributed in accordance with the following allotment categories (none of which have a minimum guaranteed allotment):
 - a. senior managers: not more than 25,000 stock options per person; and
 - b. certain other key employees of the group, who according to the assessment of the board of directors have the largest impact on the company's financial and operational performance: not more than 15,000 stock options per person.
- e) Allotted stock options shall be offered free of charge. Such offers shall be made within 10 banking days from the date the resolution on allotment is made. Over-allocation may not occur.
- f) 522,500 stock options are intended to be offered no later than on 15 June 2023. The remaining 57,500 stock options are intended to be retained by the company to be offered to employees who potentially are employed before 30 April 2024.
- g) Stock options which are allotted and subscribed for may be exercised by the holder during the 30 days following publication of the company's interim financial reports for the second quarter of 2026, the third quarter of 2026 and the first quarter of 2027, respectively. Holders who have been offered stock options after 15 June 2023 will only be able to exercise such stock options during the last of the periods mentioned above.
- h) The holder shall be entitled to exercise the stock options during the periods set out above, provided that the relevant holder at the date of exercise of the stock options (i) is employed by the company or by any other company within the group and (ii) has not given notice of resignation, received notice of dismissal (Sw. *avsked*) or received notice of termination from its employment in the company or in any company within the group due to personal reasons (Sw. *uppsägning av personliga skäl*). Holders who have been offered stock options after 15 June 2023 may only exercise the options after publication of the company's interim financial report for the first quarter of 2027.
- i) At exercise, each stock option will entitle the holder to receive one warrant immediately exercisable for one share in the company against payment of the subscription price.
- j) For participation in Option Program 2023/2027 it is required that such participation is legally possible, and that such participation in the board of directors' opinion is possible at reasonable administrative costs and with reasonable financial resources.
- k) Issued stock options do not constitute securities and may not be transferred, pledged or otherwise disposed of by the holder.

- l) The terms and conditions of the Option Program 2023/2027 may differ for certain participants due to the local laws and regulations of such participant's jurisdiction.
- m) In other respects, the board of directors shall establish the general terms for participation in the program.

(B) Directed issue of warrants and approval of transfer of warrants in order to fulfil the company's commitments under Option Program 2023/2027 and to secure social security charges

In order to enable the company's delivery of shares pursuant to Option Program 2023/2027 and to secure costs connected therewith, primarily social security charges, the board of directors proposes that the annual general meeting resolves on a directed issue of warrants and to approve the transfer of warrants on the following terms:

- (a) A maximum of 762,236 warrants shall be issued, entailing an increase in the share capital of a maximum of SEK 3,679.76 upon full exercise.
- (b) Right to subscribe shall, with deviation from the preferential right for existing shareholders, reside in the company's wholly owned subsidiary Paradox Development Studio AB.
- (c) Subscription of the warrants shall be made on a separate subscription list no later than 15 June 2023.
- (d) The warrants shall be issued free of charge.
- (e) Each warrant shall entitle the holder to subscribe for one new share.
- (f) Each warrant shall initially entitle the holder to subscribe for one new share in the company at a subscription price corresponding to 120 per cent of the volume weighted average transaction price (rounded off to the closest öre (SEK 0.01)) for the company's share on Nasdaq First North Growth Market during the five trading days following the date of publication of the company's interim financial report for the first quarter of 2023. The subscription price and the number of shares for which each warrant entitles the holder to subscribe may be subject to recalculation pursuant to a bonus issue, share split, new issue with preferential rights and similar measures, whereby conventional terms and conditions for recalculation shall be applied.
- (g) Subscription of shares in the company by virtue of the warrants shall be made during the 30 days following publication of the company's interim financial reports for the second quarter 2025, the third quarter 2026 and the first quarter 2027, respectively. The share premium shall be transferred to the unrestricted premium reserve.
- (h) Shares issued following exercise of warrants during a certain financial year shall entitle to dividend for the first time on the record day for dividend which occurs following registration of the shares with the Swedish Companies Registration Office.
- (i) The complete terms and conditions for the warrants are set out in "Terms and conditions for Paradox Interactive AB (publ)'s warrants 2023/2027".

The reason for the deviation from the shareholders' preferential right is that the issue forms part of the implementation of Option Program 2023/2027. In view of what is set forth under "*Background and reasons*" above, the board of directors is of the opinion that it is of benefit to the company and its

shareholders that key employees of the group are offered to participate in Option Program 2023/2027.

The board of directors further proposes that the annual general meeting resolves to approve that Paradox Development Studio AB transfers warrants to participants in Option Program 2023/2027 and otherwise disposes of the warrants in order to secure the company's commitments and costs in connection with Option Program 2023/2027.

Finally, the board of directors proposes that the board of directors, or anyone appointed by the board of directors, should be authorised to make such minor adjustments to the above proposal that may be necessary in connection with the registration procedures with the Swedish Companies Registration Office, and possible registration of the warrants with Euroclear.

Costs

The Option Program 2023/2027 will incur costs for the company in reference partly to personnel costs from an accounting perspective in accordance with IFRS 2 and partly to social security contributions.

Based on the assumption of a share price at the time of allocation of the stock options of SEK 259.4, that all 580,000 stock options will be allotted no later than on 15 June 2023 and subsequently exercised, the personnel cost from an accounting perspective according to IFRS 2 for the Option Program 2023/2027 is estimated to amount to a total of approximately SEK 24.6 million recognized during the period 2023–2026. Tax effects should be determined locally. As an example, from a Swedish perspective a final assessment should be made at the time of exercise, implying that the company should make adjustments between the amount already recognised and the final market value that forms the basis for social security contributions. Personnel costs in accordance with IFRS 2 do not affect the company's cash flow. The stock options do not have a market value since they are not transferable. However, the board of directors has calculated a theoretical value of the stock options using the Black & Scholes valuation model. The calculations have been based on the term of the stock options, the subscription price, an assumed share price of SEK 259 per share at the time of allocation of the stock options, a risk-free interest rate of 2.6 percent, an assumed volatility of 35.3 percent, and an expected dividend of SEK 2 per year. In accordance with this valuation, the value of the options in the Option Program 2023/2027 is approximately SEK 42.45 per option.

Upon a positive development of the share price, the Option Program 2023/2027 will entail costs in form of social security contributions. The total costs for social security contributions will depend on the number of stock options that will be vested and on the value of the benefit that the participant finally will receive, i.e., on the value of the stock options when exercised, but also in which countries the participants are resident and what percentages that apply to social security contributions in these countries. The costs for social security contributions are estimated to approximately SEK 12.5 million, assuming allotment of 580,000 stock options, exercise of all the allotted stock options, that the average social security contribution amount to 31.42 percent, an exercise price of SEK 311.33, and an assumed share price of SEK 379.85 when the stock options are exercised. With the same assumptions except for instead a share price of SEK 453.77 when the stock options are exercised, the corresponding costs are estimated to approximately SEK 26.0 million. The costs for social security

contributions will be recognised during the period from the grant date to the end of the vesting period. The company's entire cost for social security contributions is expected to be secured through the directed issue of warrants in accordance with item (B) above.

All of the calculations above are preliminary and aim only to present an example of the potential costs that the Option Program 2023/2027 may incur. Actual costs may therefore deviate from what has been stated above.

Dilution and effect on material key ratios

Option Program 2023/2027 comprises the issuance of maximum 762,236 warrants, of which 580,000 warrants are issued in order to fulfil the company's commitments towards the participants in the program and 182,236 warrants are issued in order to secure costs for social security charges. At full exercise of all issued warrants under Option Program 2023/2027 for subscription of new shares, 762,236 shares will be issued, corresponding to approximately 0.72 percent of the shares in the company.

The company has an outstanding warrant program which was adopted at the annual general meeting held on 15 May 2020 ("Option Program 2020/2023"), an outstanding employee stock option program which was adopted on the annual general meeting held on 18 May 2021 ("Option Program 2021/2025") and an outstanding employee stock option program which was adopted by the annual general meeting held on 10 May 2022 ("Option Program 2022/2026"). A total of 292,600 warrants are outstanding under Option Program 2020/2023. Each such warrant entitles the holder to subscribe for one new share in the company during the period from 15 June 2023 to 30 June 2023. A total of 398,663 warrants are outstanding under Option Program 2021/2025, which corresponds to the total number of stock options issued in the program, less the number of stock options which have lapsed since the holder no longer fulfils the prerequisites for exercising the stock options as well as the warrants issued to cover the social fees relating to such now lapsed options. Each such warrant entitles its holder to subscribe for one new share in the company during the 30 days following the publication of the company's interim financial report for the second quarter of 2024, the third quarter of 2024 and the first quarter of 2025. A total of 660,386 warrants are outstanding under Option Program 2022/2026, which corresponds to the total number of stock options issued in the program, less the number of stock options which have lapsed since the holder no longer fulfils the prerequisites for exercising the stock options as well as the warrants issued to cover the social fees relating to such now lapsed options. Each such warrant entitles its holder to subscribe for one new share in the company during the 30 days following the publication of the company's interim financial report for the second quarter of 2025, the third quarter of 2025 and the first quarter of 2026. If all outstanding warrants issued within the scope of Option Program 2020/2023, Option Program 2021/2025 and Option Program 2022/2026 are exercised for subscription of shares in the company, 1,351,649 shares will be issued, corresponding to approximately 1.28 percent of the shares in the company.

If all warrants issued under Option Program 2020/2023, Option Program 2021/2025 and Option Program 2022/2026 are exercised for subscription of shares and if all warrants proposed to be issued within the scope of the Option Program 2023/2027 are issued and exercised for subscription of

shares, a total of 2,113,885 shares will be issued, corresponding to approximately 2.00 percent of the shares in the company.

The material key ratios for the group's business are the group's equity ratio (Sw. *soliditet*) and net margin (Sw. *nettomarginal*). By applying the above assumptions when estimating personnel costs from an accounting perspective in accordance with IFRS 2 and costs for social security contributions, it is the board of director's opinion that the effect of Option Program 2023/2027 on said key ratios is marginal.

Preparation

The proposal for Option Program 2023/2027 has been prepared by the board of directors in consultation with external advisers. The proposal has been unanimously adopted by the board of directors.

Majority requirements

The board of directors' proposal with respect to Option Program 2023/2027 and the board of directors' proposal for a directed issue and transfer of not more than 762,236 warrants is a cohesive proposal, why a resolution in accordance with one of the partial proposals shall be conditional upon a resolution in accordance with the other partial proposal and that Chapter 16 of the Companies Act shall be applied on the cohesive proposal. A valid resolution in accordance with the board of director's proposal requires that it is supported by shareholders representing at least nine tenths of both the number of votes cast and the shares represented at the meeting.

NUMBER OF SHARES AND VOTES

At the time of this notice there are 105,619,209 shares in the company, representing a total of 105,619,209 votes.
