Caverion implements Total Technical Solutions for shopping mall in Bergen, Norway

Caverion has signed an agreement with the general contractor LAB to deliver a Large Project with Total Technical Solutions for the expansion of a shopping mall in Bergen, western Norway. The contract has a volume of approximately EUR 11.2 million.

The expansion of the shopping mall includes a new building of 50,000 square metres, a parking lot and a cinema. Caverion will deliver Advisory Services, Design & Engineering, Project Management and Project Execution for the disciplines of Heating & Sanitation, Ventilation and Air Conditioning, Cooling, Electricity, Information and Communications Services, Security & Safety, and Automation.

“With a project of this size and complexity we are dependent on stable partners that can deliver work of high quality. We have collaborated with Caverion before and have complete trust in their abilities to deliver high quality life cycle solutions,” says **Trygve Mo**, CEO in LAB.

“Our Large Projects unit is specialised in managing demanding projects. Unified processes and good project management competence ensure that the project is delivered according to its targets related to quality, time and financials,” says **Knut Gaaserud**, Executive Vice President & CEO, division Denmark-Norway of Caverion.

Caverion’s work started in March 2017. The parking lot will be completed in November 2017, the shopping mall in November 2018 and the cinema in August 2019.
