

Cereno Scientific Announces Program and Speakers for the Capital Markets Day on February 5, 2026

Cereno Scientific (Nasdaq First North: CRNO B), an innovative biotech pioneering treatments to enhance and extend life for people with rare cardiovascular and pulmonary diseases, today announced the program for the Capital Markets Day to be held on February 5, 2026, in Stockholm and virtually.

The Capital Markets Day will provide investors, analysts and financial media with an update on Cereno Scientific's clinical development program, strategic priorities and growth ambitions. The program will include presentations from the company's management as well as contributions from external speakers with relevant scientific and clinical expertise.

Date: Thursday, February 5, 2026

Time: 13:00-16:30 CET (doors open at 12:30)

Location: GT30 Grev Ture, Grev Turegatan 30, 114 38 Stockholm

Register your participation, physical or virtual,
on: <https://invitepeople.com/events/ab14e4cfb5>

Capital Markets Day 2026 program

Time	Topic
13:00	Welcome & Opening remarks Mike Ward, <i>Global Head of Life Sciences & Healthcare Thought Leadership, Clarivate</i> (moderator)
13:05	Leadership, growth and reshaping treatment paradigms Sten R. Sørensen, <i>CEO at Cereno Scientific</i> , and Mike Ward
13:20	Company progress and pipeline momentum Sten R. Sørensen
13:35	Pulmonary arterial hypertension – disease biology, current treatments and unmet needs Prof. Marc Humbert, <i>Université Paris-Saclay</i> (virtual)
13:50	Presentation: Patient perspective – living with PAH Hall Skåra, <i>PHA Europe</i>
14:05	What meaningful change in therapy is desirable for patients with PAH? Prof. Marc Humbert, Hall Skåra, Dr. Rahul Agrawal, <i>CMO and Head of R&D at Cereno Scientific</i> , and Mike Ward
14:30	Coffee break
14:40	Advancing CS1 into Phase IIb in PAH Dr. Rahul Agrawal

14:55	From Phase IIa to market – clinical development path for CS1 Sten R. Sørensen, Dr. Rahul Agrawal, Dr. Björn Dahlöf, CSO at Cereno Scientific, and Mike Ward
15:20	CS1's value proposition in the global PAH market Sten R. Sørensen, Dr. Rahul Agrawal, Dr. Björn Dahlöf, and Mike Ward
15:35	Cereno Scientific - Strategic focus and objectives Sten R. Sørensen
15:50	Questions from the Audience Facilitated by Mike Ward
16:00	Networking and informal discussions

About Cereno Scientific AB

Cereno Scientific is pioneering treatments to enhance and extend life. The company's innovative pipeline offers disease-modifying drug candidates to empower people suffering from rare cardiovascular and pulmonary diseases to live life to the fullest.

Lead candidate CS1 is an HDAC inhibitor that works through epigenetic modulation and represents a novel therapeutic approach by targeting the root mechanisms of the pulmonary arterial hypertension (PAH). CS1 is a well-tolerated oral therapy with a favorable safety profile that has shown encouraging efficacy signals of reverse vascular remodeling, improvement of right heart function and enhanced patient quality of life in a Phase IIa trial in patients with PAH. An Expanded Access Program enables patients that have completed the Phase IIa trial to gain access to CS1. CS014, a new chemical entity with disease-modifying potential, showed favorable safety and tolerability profile in a Phase I trial.

CS014 is a HDAC inhibitor with a multimodal mechanism of action as an epigenetic modulator having the potential to address the underlying pathophysiology of rare cardiovascular and pulmonary diseases with high unmet needs such as idiopathic pulmonary fibrosis (IPF). Cereno Scientific is also pursuing a preclinical program with CS585, an oral, highly potent and selective prostacyclin (IP) receptor agonist that has demonstrated the potential to significantly improve disease mechanisms relevant to cardiovascular diseases. While CS585 has not yet been assigned a specific indication for clinical development, preclinical data indicates that it could potentially be used in indications like thrombosis prevention without increased risk of bleeding.

The Company is headquartered in GoCo Health Innovation City, in Gothenburg, Sweden, and has a US subsidiary; Cereno Scientific Inc. based in Kendall Square, Boston, Massachusetts, US. Cereno Scientific is listed on the Nasdaq First North (CRNO B). The Company's Certified Adviser is DNB Carnegie Investment Bank AB, certifiedadviser@carnegie.se.
