Nobina wins major contract in central Gothenburg

Nobina has been awarded a new contract by Västtrafik to operate and develop parts of its city transport services in central Gothenburg in addition to services in the neighbouring Angered and surrounding areas. The contract entails an extension of the collaboration with Västtrafik and has a total value of just over SEK 2.1 billion over the ten-year contract period.

Nobina already has several traffic contracts with Västtrafik and the new contract will extend the collaboration and significantly expand services. In total, the contract will encompass approximately 80 scheduled buses, of which the absolute majority will be brand-new electric buses. The city transport services are scheduled to start in June 2022, followed by the start-up of traffic in the surrounding area in June 2023.

Nobina's promise is to always offer passengers travel that is welcoming, safe and sustainable. All vehicles will feature low entry steps, Wi-Fi and USB sockets and be equipped with security cameras. In addition, all city transport will operate solely on electricity.

"We are very pleased with this new contract awarded to us by Västtrafik and that it wants to continue working with us to develop attractive and sustainable public transport," says Henrik Dagnäs, Managing Director of Nobina Sweden.

The award decision can be appealed until 26 April 2021.

This information is such that Nobina AB (publ) is obligated to disclose pursuant to the EU Market Abuse Regulation. The information was published, through the agency of the contact persons mentioned below, at 12:15 p.m. on 16 April 2021.

About Nobina

This is Nobina. We are the Nordic region's largest public transport operator, with 12,000 employees across four countries. Every day, all year round, one million people choose to travel more sustainably with us. From north to south, in urban and in rural areas. To the next bus stop, or all the way home. Together with our passengers and clients, we are big enough to make a real difference. From a welcoming greeting and a comfortable bus journey, to new smart technology that contributes to more fossil-free travel. A unique opportunity to bring about change.

The Group operates in Sweden, Norway, Denmark and Finland and reported sales of almost SEK 11 billion in 2019. In the Swedish and Danish markets, Nobina also operates special needs transportation under the Samtrans and Örslev brands, respectively. Nobina is listed on Nasdaq Stockholm.

Together, we keep society moving every day.
