

Press release 9 September 2021

## Nobina awarded renewed and expanded assignment in two new contracts with Movia

**Movia has chosen to renew two new contracts with Nobina, one of which also involves an expansion of the current collaboration. The two contracts comprise a total of 24 scheduled electric buses and are estimated to have a combined value of about DKK 570 million over the contract period. One of the contracts has a ten-year contract period with two optional extension years while the contract period of the second contract will be decided later this year. Traffic start-ups for both contracts are in December 2022.**

Nobina has an established collaboration with Movia and currently operates a large share of services in North Zealand. The first contract, which includes services in Lyngby, Rudersdal and Gentofte, entails a continuation of a current collaboration while the second contract, including services in Furesø and Hillerød, entails a renewed and expanded contract now also encompassing city transport in the region. In total, the two contracts comprise 24 new electric buses, which benefit both passengers and society in the form of quiet vehicles and better air quality.

“We are proud that Movia has decided to both renew and expand our collaboration. This will allow us to continue to operate public transport that focuses on passengers, at the same time as we lead and contribute to sustainable development,” says Bram Lauwers, Business Area Director Denmark.

The award decision can be appealed until 20 September 2021.

### **About Nobina**

This is Nobina. We are the Nordic region's largest public transport operator, with 12,000 employees across four countries. Every day, all year round, one million people choose to travel more sustainably with us. From north to south, in urban and in rural areas. To the next bus stop, or all the way home. Together with our passengers and clients, we are big enough to make a real difference. From a welcoming greeting and a comfortable bus journey, to new smart technology that contributes to more fossil-free travel. A unique opportunity to bring about change.

The Group operates in Sweden, Norway, Denmark and Finland and reported sales of almost SEK 11 billion in 2020/2021. In the Swedish and Danish markets, Nobina also operates service traffic under the Samtrans and Örslev brands, respectively. Nobina is listed on Nasdaq Stockholm.

Together, we keep society moving every day.
