

Press release 11 December 2025

## Nobina strengthens its position in Finland with new contract in the Helsinki region

**Through a new city transport contract, HSL has further extended its trust in Nobina. The new contract will commence in August 2027 and run for seven years, with an additional three option years.**

In total, the contract includes 37 buses, the majority of which are electric, and will lead to an expansion of Nobina's operations in the Helsinki Capital Region.

"We are pleased with the continued and expanded trust from HSL. Being able to further drive the transition and electrification of bus services, and to develop public transport with more sustainable, safe and comfortable journeys for residents in the Helsinki region," says Topi Simola, Managing Director, Nobina Finland.

The award decision can be appealed until December 24, 2025.

### **About Nobina**

This is Nobina. We are the Nordic region's largest public transport operator, with 15,000 employees across four countries. Every day, all year round, one million people choose to travel more sustainably with us. From north to south, in urban and in rural areas. To the next bus stop, or all the way home. Together with our passengers and clients, we are big enough to make a real difference. From a welcoming greeting and a comfortable bus journey, to new smart technology that contributes to more fossil-free travel. A unique opportunity to bring about change.

The Group operates in Sweden, Norway, Denmark and Finland and reported sales of approximately SEK 14 billion in 2024/2025. In the Swedish market, Nobina also operates special needs transportation under the Samtrans, Göteborgs Buss, and Telepass brands, respectively.

Together, we keep society moving every day.
