## Multinational company chooses FlowScape after successful pilot

FlowScape has won a deal with a large multinational company after a successful pilot project. The order concerns the company's office in the Netherlands and covers FlowScape's entire Smart Office offering with a value of approximately SEK 1.1 million.

The customer is a global leader within its industrial segment and has offices in 140 countries. In 2018, the customer evaluated several different suppliers in the digital Smart Office segment before deciding to try the FlowScape system during a six-month pilot. The outcome was successful and the rollout in the Netherlands is seen as a possible first step towards further FlowScape installations for the same customer.

"At FlowScape we deliver a leading Smart Office system, focusing on smart workplaces, smartphone apps and a space management tool that gives the customer the opportunity to optimize their office space. This installation is further proof of FlowScape's competitiveness outside the Nordic market for large customers with high expectations and requirements" says Anders Malmström, Sales and Marketing Manager at FlowScape.

### Kort om FlowScape Technology AB

FlowScape is "the modern office flowmaker". By offering state-of-the-art IoT technology, FlowScape reduces time-consuming and increases peer interaction and productivity. The main function, Flowmap, gives companies an overview of the office and enables you to quickly find rooms, desks, office equipment and colleagues. FlowScape also has the communication tool C-One, a flexible platform for managing large-scale communication based on existing infrastructure. FlowScape has offices in Stockholm (main office) and London.
