

Large consultancy firm chooses FlowScape in USA

The customer, a large multinational North American consultancy firm, selects FlowScape after a successful pilot project. The order amounts to 2,8 MSEK in the first year and thereafter a yearly 730,000 SEK.

” We are very happy to win this order in tough competition in the US. The order proves that our product works very well also on the North American market. FlowScape gets another strong reference customer on the US market and we see great possibilities to grow with the customer, both in the US and in other countries” says Peter Reigo, CEO and founder of FlowScape.

The customer is a world leading consultancy company in their business segment with more than 40,0000 employees in about 40 countries. They have a need for efficient room bookings, visualise desk availability, measure actual utilisation of the space and a modern colleague-finder solution at their office. FlowScape was selected for the new office in Manhattan, New York, where 950 employees will be based. The order was won in competition with three global and local smart office suppliers and after a pilot project.

About FlowScape AB

FlowScape is "the modern office flowmaker". By offering state-of-the-art IoT technology, FlowScape reduces time-consuming and increases peer interaction and productivity. The main function, Flowmap, gives companies an overview of the office and enables you to quickly find rooms, desks, office equipment and colleagues. FlowScape also has the communication tool C-One, a flexible platform for managing large-scale communication based on existing infrastructure. FlowScape has offices in Stockholm (main office) and London.
