

FlowScape gains ground in Sweden

One of Sweden's leading companies in the gaming industry chooses FlowScape's smart office solution for its office in Stockholm. The order value for the first year is 720,000 SEK and thereafter 190,000 SEK annually.

"Another Swedish company has chosen FlowScape. Our future-proof smart office solution is once again proven to be the strongest on the market. The customer sees great value in using sensors both to enable FlowScape's innovative functions and to get the best possible data on how the office is actually used.", says Anders Malmström, VP Sales & Marketing at FlowScape.

The customer has chosen FlowScape's complete smart office solution with room booking via mobile app, room panels, Outlook plug-in and kiosk screens. Workplaces can be booked, blocked or automatically reserved via the sensors. The use of all rooms and workplaces will be followed up in FlowScape's analytics portal.

The transaction is carried out together with one of our partners.

About FlowScape AB

FlowScape is "the modern office flowmaker". By offering state-of-the-art IoT technology, FlowScape reduces time-consuming and increases peer interaction and productivity. The main function, Flowmap, gives companies an overview of the office and enables you to quickly find rooms, desks, office equipment and colleagues. FlowScape also has the communication tool C-One, a flexible platform for managing large-scale communication based on existing infrastructure. FlowScape has offices in Stockholm (main office) and London.
