

Flowscape wins new customer in Sweden

One of Sweden's leading companies in the fast-moving consumer goods industry select Flowscape's smart room booking solution for their headquarters in Stockholm. The order value for the first year is 200,000 SEK and then approximately 130,000 SEK annually.

"Another important player in Sweden has chosen Flowscape's smart and scalable room booking solution. Flowscape's smartphone app replaces the customer's existing room panels. At the same time, the customer gets more functionality and more flexibility to grow with new features going forward." says Anders Malmström, VP Sales & Marketing at Flowscape.

To their head office with more than 2,000 employees the customer has chosen Flowscape's smart room booking solution where end-users easily can find and book available rooms via their smart phone, web maps or Outlook plugin. The customer's solution is a good example of how Flowscape's system is easy to start with but at the same time very scalable where the customer can expand in the future with, for example, sensors, room panels, desk booking and the colleague finder.

The deal is carried out together with our partner AudicomPendax.

About Flowscape AB

Flowscape is "the modern office flowmaker". By offering state-of-the-art IoT technology, Flowscape reduces time-consuming and increases peer interaction and productivity. The main function, Flowmap, gives companies an overview of the office and enables you to quickly find rooms, desks, office equipment and colleagues. Flowscape also has the communication tool C-One, a flexible platform for managing large-scale communication based on existing infrastructure. Flowscape has offices in Stockholm (main office) and London.
