

Flowscape wins new contract in USA

A large global consulting company expands its Flowscape installation to a new office in the United States. The customer now use the solution at 21 of their North American offices. The total value of this order is 265,000 SEK the first year and thereafter 70,000 SEK annually.

"We have the pleasure of expanding with one of our major customers in North America. The customer sees great value with Flowcape's comprehensive solution and that we fulfill the high demands on functionality, safety and flexibility for their employees. We have continuously adapted our solution to the market's local requirements and we see good opportunities for continued expansion both with this customer and in the North American market." says Magnus Arildsson, Country Manager USA and Canada, Flowscape.

A strong driving force for the customer is to create an efficient everyday life for their employees while at the same time being able to continuously optimize their office space. With Flowscape, they have found an innovative and modern solution that enhances employees' experience and efficiency in their workplace. Flowscape is also an important part of the company's planned return to the office in 2021.

Flowscape's solution for the customer includes room panels, room booking solution and desk bookings as well as sensors to accurately measure how the office is used. Both meeting rooms, workplaces and important office resources are visualized on Flowscape's interactive map, Flowmap, which can be accessed via mobile phone, laptop and on the kiosk screens. The solution also contains the powerful statistics tool Flowmanager where the customer can analyze the use of both meeting rooms and workplaces.

About Flowscape Technology AB

Flowscape is a Prop-Tech company with a world-leading solution for social distancing in the office, optimization of office space and a more efficient workday. The solution uses the latest IoT sensors and indoor positioning technology to create a state of the art SaaS solution for smart offices. The main function, Flowmap, gives companies an overview of the office and enables them to quickly find rooms, desks, office equipment and colleagues as well as analysis of the use of the spaces. Flowscape also has a communication tool for efficient geo fence specific communication to people in a building or people within an area in the event of a crisis. Flowscape has offices in Stockholm (headquarters), Sofia, San Francisco and London.
