

Large Swedish industrial company choose FlowScape

One of Sweden's largest industrial companies has chosen to extend and expand its FlowScape solution at their head office. The order value in the first year amounts to 105,000 SEK and thereafter 90,000 SEK annually. The deal is done in collaboration with FlowScape's partner Fujitsu.

"We are pleased that FlowScape has been entrusted to support the customer in creating a safe return to the office during the pandemic. This head office installation can lead to good opportunities for future expansions to the customers offices globally. We currently see that many companies are interested in Covid-adapted solutions for a safer return to their offices " says Peter Löfgren, Nordic Sales Manager at FlowScape.

The customer already use FlowScape's room booking solution and have now expanded their installation with Desk management solution. FlowScape solution will support the customer in ensuring the maximum number of employees does not exceed the company policy and regulations. When blocking of desks a safe distance between booked workplaces is possible to control. Sensors for measuring presence will also provide extensive information about how the office is actually used, which is critical to be able to optimize the space. The solution includes FlowScape's room panel, room booking, desk booking and analytics solution with sensors, kiosk screens, mobile apps and Outlook plugin

The deal is being carried out with FlowScape's partner Fujitsu, which is one of the world's largest IT infrastructure providers.
