

Nordic company chooses FlowScape

One of the Nordic region's largest consumer product companies updated their FlowScape solution at one of their Swedish offices. The order value amounts to SEK 185,000.

“We are pleased that another satisfied customer chooses to update their room booking solution with new room panels. It is a good rating for us that the customer decided to continue and update with our new room booking panels. This installation at one of the customer's Swedish offices gives us good opportunities to expand with our smart office solutions to more of the customer's 30,000 employees globally” says Peter Löfgren, Nordic Sales Manager at FlowScape.

The customer already uses FlowScape's room booking solution in some of their offices and are now updating their solution with FlowScape's new room booking panels at one Swedish office. The customer's solution is a good example of FlowScape's quality and scalability. The solution are well suited for all types of customers and can easily be expanded with, for example, workplace booking, sensors, workplace booking and the colleague finder. About FlowScape Technology AB

FlowScape is a Prop-Tech company with a world-leading solution for social distancing in the office, optimization of office space and a more efficient workday. The solution uses the latest IoT sensors and indoor positioning technology to create a state of the art SaaS solution for smart offices. The main function, Flowmap, gives companies an overview of the office and enables them to quickly find rooms, desks, office equipment and colleagues as well as analysis of the use of the spaces. FlowScape also has a communication tool for efficient geo fence specific communication to people in a building or people within an area in the event of a crisis. FlowScape has offices in Stockholm (headquarters), Sofia, San Francisco and London.
