

Flowscape receives software order in the UK and Ireland

A British company in the financial services sector has selected Flowscape's solution to book desks and parking spaces for all three of its offices in Great Britain and Ireland. The solution is considered a key element of their digital workplace strategy post-pandemic. The order value in the first year is GBP 40,000 and thereafter GBP 32,000 annually.

"The UK is now starting to reopen, and we are seeing an increasing number of incoming requests for our products. This customer enquiry was received from our website and following a pilot, they have now chosen to implement Flowscape's solution in all their offices. We are delighted that they have selected Flowscape as the strongest solution to support their strategy for getting back to work in the office, and we are excited to see our new parking booking capability being rolled out in the UK." says Gary Bernstein, Head of UK & Ireland.

The customer chose to implement Flowscape's solution to both book and block workplaces and parking spaces. The solution is implemented in three different offices in Great Britain and Ireland, with users being able to book the resources via Flowscape's interactive 3D map on their smartphone, laptop or tablet.

About Flowscape Technology AB

Flowscape is a Prop-Tech company with a world-leading solution for social distancing in the office, optimization of office space and a more efficient workday. The solution uses the latest IoT sensors and indoor positioning technology to create a state of the art SaaS solution for smart offices. The main function, Flowmap, gives companies an overview of the office and enables them to quickly find rooms, desks, office equipment and colleagues as well as analysis of the use of the spaces. Flowscape also has a communication tool for efficient geo fence specific communication to people in a building or people within an area in the event of a crisis. Flowscape has offices in Stockholm (headquarters), Sofia, San Francisco and London.
