**About Redwood Pharma**

Redwood Pharma develops ophthalmic products for unmet medical needs. The Company's first project is the development of drug candidate RP101 with a known active substance against chronic dry eye in postmenopausal women who have moderate to severe symptoms. With the drug delivery platform IntelliGel® the release of active substances is controlled. Through the use of IntelliGel, Redwood Pharma can also improve dosing of other established drugs. Redwood Pharma's strength lies in formulation and early clinical development. Revenues will be generated through licensing agreements with pharmaceutical companies that have capabilities to manufacture and sell commercial products worldwide.

Redwood Pharma AB (publ) is listed on AktieTorget, a Swedish Multilateral Trading Facility (Ticker: REDW.ST, ISIN: SE008294789).
