

Talkpool wins global frame agreement with Digicel Group

After more than 11 years of close collaboration between Digicel Haiti and Talkpool, Digicel is now expanding its relationship with Talkpool by signing a 10-year global framework agreement between Digicel Group and Talkpool AG for the delivery of telecom network operation and maintenance services to all of Digicel's 33 markets throughout world.

Digicel has until now had a decentralized structure with multiple suppliers providing operation and maintenance services in various markets but wishes to centralize and consolidate its supplier base to drive efficiencies and benefit from economies of scale.

Digicel was looking to engage a specialist Supplier to supply and manage the provision of services in relation to the site maintenance, operation and maintenance and takeover operations from any incumbent suppliers of site maintenance services and Talkpool has proven to Digicel that it has the expertise, experience, capacity and capability to provide the site maintenance services required by Digicel.

"For over 11 years, we have been working hard to support Digicel in one of their most important and challenging markets, Haiti. Now that we have been rewarded with a global framework agreement with Digicel Group, which confirms to me that we are doing a professional job and are an important partner for Digicel. "

says Erik Strömstedt, CEO of Talkpool Group.

The frame agreement is valid retroactively from 1 July 2017 and is valid for 10 years.
