

## Talkpool signs framework agreement with Atrium Ljungberg for smart buildings

Talkpool has signed a framework agreement with the real estate company Atrium Ljungberg, which provides an end-to-end solution for smart buildings. The agreement initially covers a five-year period and includes, requirement analysis, project management, installation and delivery of sensors / meters, IoT networks and measurement value collection, data integration, technical support and system monitoring.

Atrium Ljungberg owns and manages a large number of properties in Sweden. At present, it includes approximately 1,200,000 square meters of rentable area with a value of SEK 49 billion. Most of the properties are located in Stockholm, but there are also properties in Uppsala, Gothenburg and Malmö.

- Atrium Ljungberg develops attractive and sustainable urban environments where people want to live, work and interact, today and in the future. We want to be at the forefront of connected smart buildings as part of the vision "Everyone wants to live in our city" and create value growth for the company, our shareholders and society at large, says Jonas Törnell Head of Procurement at Atrium Ljungberg.

Atrium Ljungberg is already a customer both for Talkpool and the network company Nordic IoT Networks. Solutions are used for sub metering, energy efficiency and environmental certification of properties. Projects are currently in progress in the Sickla, Kista and the Slakthus areas.

- The fact that we have an established and increased engagement with Atrium Ljungberg makes us very proud. We look forward to contributing with our IoT expertise and over time to create a end-to-end solution for smart properties together with Atrium Ljungberg, says Henrik Lindgren Head of IoT Services at Talkpool.
