

Press release, August 29th, 2019 10:30

Swedencare AB (publ) production facility has been GMP B8 accredited

The Swedencare production facility, located in Waterford, Ireland, has been awarded the International Product and Process quality certification - GMP+FC.

“We are delighted to announce the ‘GMP+ B8’ accreditation of our Irish Production Premises based in Waterford. This certification will be an invaluable asset to assist the Commercial and Marketing functions of the Company as a whole. The accreditation gives Customers the assurance that our Company has met demonstrable standards of feed safety, such as standards relating to a feed safety management system, the application of HACCP principles, for traceability & monitoring. It also gives confidence that our total Supply Chain has a Feed Safety Assurance system that is certified; from our materials purchasing, logistics, documentation, manufacturing processes and facility”.

- Håkan Lagerberg, CEO

About Swedencare

Swedencare develop, produce, market, and sell premium products on the global and fast-growing market within animal healthcare for cats, dogs and horses. The product groups ProDen PlaqueOff and NutriScience are represented on approximately fifty markets in all parts of the world, including the headquarter in Malmö, six subsidiaries in the Nordics, United States, France, Spain, Great Britain and Ireland and through an external distribution network. Swedencare's sales have increased significantly over the last few years with strong margins and results. The board of directors and the management have a wide and extensive experience of international marketing and sales.

About GMP

GMP+ Feed Safety Assurance is a complete module for the assurance of feed safety in all the links of the feed chain. Based on needs in practice, multiple components have been integrated into the GMP+ FSA module, such as requirements for the quality management system (ISO 9001), HACCP, product standards, traceability, monitoring, prerequisites programs, chain approach and the Early Warning System.

The information was submitted for publication, through the agency of the contact person set out above, at 10:30 CET on August 29th, 2019.
