## **GomSpace (provider of nanosatellites) announces its quarterly results for the fourth quarter 2018**

Stockholm, February 28, 2019. GomSpace Group AB (the "Company") announces its interim report for the fourth quarter of 2018. The report is available on the Company's homepage ([www.gomspace.com](http://www.gomspace.com)). The following is taken from the quarterly report:

"The net revenue in 2018 amounted to T.SEK 153,384 compared to T.SEK 96,405 in 2017. This corresponds to a growth rate of 59%. Without the impact of the elimination of sales to associated companies, the growth rate corresponds to 63%. The gross margin amounts to 25%; without elimination, it would have been 30%.

We did not fully reach the expected revenue and margins as the Sky and Space Global project was slowed down to a minimum due to overdue payments, which led to restructuring and reduction of staff in GomSpace. Sky and Space Global sent documentation for a bank transfer on 22 February, we expect the payments to appear on our bank account in the next couple of days."

CEO Niels Buus commented.
