GomSpace signs 2.1 MEUR (SEK 23 million) contract extensions with European Tech Firm

Following the June 25, 2025 announcement of a contract for 18 satellites with a confidential European customer, GomSpace has signed two amendments to the agreement, addressing new strategic needs identified by the customer — including the accelerated delivery of two satellites.

Reflecting its continued focus and commitment to industrial agility and problem-solving, GomSpace is well-positioned to meet growing market demands for shorter lead times. In this case, the company will deliver two satellites within just six months.

Carsten Drachmann, CEO of GomSpace, stated: *“We value the strong partnership we’ve built with our customer, and I’m pleased that we are now able to further support the advancement of their business case with very fast delivery. Our recent emphasis on accelerating time-to-market has enabled us to deliver the two satellites in under six months. This ability to shorten lead times—across both our Product and Satellite Integration segments—is strengthening GomSpace’s competitive position in the market..”*

Being a trusted partner and creating value for our customers — beyond the purely technical aspects — remains both a priority and a privilege for GomSpace.

About GomSpace Group AB

Founded in 2007, GomSpace is a global provider of small satellite solutions with customers in more than 60 countries. The company’s business operations are mainly conducted through the wholly owned Danish subsidiary, GomSpace A/S, with headquarters and operational facilities in Aalborg, Denmark. GomSpace also has key operations in Luxembourg, France, and the United States. GomSpace develops and delivers advanced systems and services that enable governments, commercial enterprises, and research institutions to achieve their objectives in space. The company’s expertise covers satellite subsystems, complete small satellite missions, and satellite operations, providing solutions that support smarter, faster, and more affordable access to space.

The company is listed on Nasdaq First North Premier Growth Market in Stockholm under the ticker GOMX. FNCA Sweden AB is the Company’s Certified Adviser. For more information, please visit
