

Follow-up order from the Terberg Group

Alelion receives another follow-up order from the global special vehicle manufacturer Terberg Group to a value of approximately SEK 16 million.

“This is yet another confirmation showing that the electrification trend within special vehicles is picking up in speed”, says Anders Dison, sales and marketing director at Alelion.

Since the two companies signed a cooperation agreement in 2018, Alelion has received orders for high-voltage battery systems corresponding to a total of SEK 80 million.

The new order, which is the fifth order from Terberg this year, worth approximately SEK 16 million, will be delivered during December 2021 and January 2022. The order also includes service agreements.
