

New Japanese patent approval for Episurf Medical

The Japanese patent office JPO has announced its intention to grant another Japanese patent for Episurf Medical (NASDAQ: EPIS B). The patent, entitled "*Method and node for manufacturing a surgical kit for cartilage repair*", covers the medical image segmentation process used for joint damage visualisation as well as for manufacturing of Episurf Medical's individualised joint implants and surgical instruments.

"This patent family gives important protection for Episurf's technology, and we are happy to see how it gets more and more approvals globally", comments Pål Ryfors, CEO, Episurf Medical.
