

New US patent approval for Episurf Medical

Episurf Medical (NASDAQ: EPIS B) has received another Notice of Allowance from the United States Patent and Trademark Office (USPTO). The patent, entitled "*Method and node for manufacturing a surgical kit for cartilage repair*", covers the medical image segmentation process used for joint damage visualisation as well as for designing Episurf Medical's individualised joint implants and surgical instruments.

"This patent covers important details of the segmentation process Episurf Medical uses for 3D visualisation of joints and we are happy to receive this approval in the US", comments Katarina Flodström, CRO & Head of IP, Episurf Medical.
