

New US patent approval for Episurf Medical

Episurf Medical (NASDAQ: EPIS B) has received another Notice of Allowance from the United States Patent and Trademark Office (USPTO). The patent, entitled "System and method for optimizing an implant in an anatomical joint", covers parts of Episurf Medical's technology for optimised design of the individualised Episealer® implants. This is the first approval in this patent family.

"The Episealer® technology includes a number of details for optimised and efficient implant design, and this patent covers an important part thereof", comments Katarina Flodström, CRO & Head of IP, Episurf Medical.

About Episurf Medical

Episurf Medical is endeavoring to bring people with painful joint injuries a more active, healthier life through the availability of minimally invasive and individualised treatment alternatives. Episurf Medical's Episealer® individualised implants and Epiguide® surgical drill guides are developed for treating localised cartilage injury in joints. Episurf Medical's µFidelity® system enables implants to be cost-efficiently tailored to each individual's unique injury for the optimal fit and minimal intervention. Episurf Medical's head office is in Stockholm, Sweden. Its share (EPIS B) is listed on Nasdaq Stockholm. For more information, go to the company's website: www.episurf.com.
