

New Chinese patent approval for Episurf Medical

Episurf Medical (NASDAQ: EPIS B) has received another Notice of Allowance from the Chinese patent office SIPO. The patent, entitled “*System and method for creating a decision support material indicating damage to an anatomical joint*” covers Episurf Medical’s 3D-based damage marking technology which constitutes a central part of the Episealer® implant system.

“This is a core patent for Episurf’s imaging technology, and we are happy for each additional allowance within this patent family”, comments Katarina Flodström, COO, Episurf Medical.

About Episurf Medical

Episurf Medical is endeavoring to bring people with painful joint injuries a more active, healthier life through the availability of minimally invasive and individualised treatment alternatives. Episurf Medical’s Episealer® individualised implants and Epiguide® surgical drill guides are developed for treating localised cartilage injury in joints. Episurf Medical’s µFidelity® system enables implants to be cost-efficiently tailored to each individual’s unique injury for the optimal fit and minimal intervention. Episurf Medical’s head office is in Stockholm, Sweden. Its share (EPIS B) is listed on Nasdaq Stockholm. For more information, go to the company’s website: www.episurf.com.
